Introduction

All praises to Allah, Lord of the worlds and peace be upon our prophet Muhammed and all his family and companions.
And then :
The science of tajweed has obtained a unique care like other sciences which are related to The Book of Allah and its classifications have multiplied, moreover the issues and questions of tajweed have been shown by several styles.
Consequently l liked to engage in this field by a simple task so, I wrote this book that collects all the rules of this science, clarifying them by different ways to make the reader understand them easily, including :

- Using Illustrative diagrams of the articulation organs.
- Colouring letters according to the rules.
- Making charts and drawings as branches for the divisions of rules
- Avoiding accurate details and controversial opinions.

As the method of show is easy, the method of finding them is also easy for the near and far by attaching them as a pdf file to download them by different languages : Arabic, English, indonesian and kurdish. A copyright is available for everyone as long as he keeps them away from adding or removing.
Before concluding,
Make sure that all defintions, notes and pieces of information are derived from the considered books of tajweed, but I used a different and easy style. May Allah reward me for this job for His sake alone and accept it in my good deeds and peace be upon our prophet Muhammed and all his family and companions.

Definition of the science of Tajweed

تَعرِيفُ عِلْمِ التَّجويدِ

Its definition

Tajweed in lingustics: Enhancement.

In applied definition: A science is established to give every letter its right and due from the articulation point and characteristic,when stopping or starting with no exaggration or intensiveness.

- Its right: inherent, permanent and constant characteristics that cannot be removed from the letter like Jahr (appearence) and Shiddah (Strength).
- Its due: Temporary characteristics are caused by permanent characteristics like Idgham (merging), ikhfaa (hiding) and Ithhar (clarity).... etc.

Its rule

Theoretical aspect: To recognize the rules, regulations and conditions of tajweed.

Its rule: Fard Kfayah (Collective duty).

Practical aspect: To apply theoretical rules of tajweed during the recitation of the Qur'an.

Its rule: Fard Ain (an individual duty).

Its advantage and benefit

To keep your tongue from committing mistakes (Lahn) when reciting the Qur'an.

To get Allah's pleasure.

Definition of the science of Tajweed

تَعرِيفُ عِلْمِ التَّجويدِ

You can acquire this knowledge (Science of Tajweed) by 2 ways

1. Arriwayah (narration): By Ard or Talqeen (Show or Repetition) or by both two matters.
   - The meaning of Show: The student recites to Sheikh.
   - The meaning of Repetition: Sheikh recites before the student, then the student repeates all were recited by the sheikh.

2. Addirayah (knowledge): To study and understand the theoretical rules of tajweed and apply them to the verses of the Qur'an, If the reciter forgot some of them, he should review the rule and correct his recitation.

- He must recite to a skillful Sheikh to improve performance and gather between the two ways (Riwayah and Dirayah).

Lahn In The Recitation Of The Qur'an

اللَّحنُ في تِلاوةِ القُرآنِ الكَريم

Its definition

Lahn in lingustics: keeping away from right, It is said (lahana) if he committed Mistake.

In applied definition: committing Mistakes when reciting the Qur'an and deviating from correctness.

Lahn (Mistake) is divided into two types: (Lahn Jali and Lahn khafi) (Obvious Mistake and Hidden Mistake).

1- Lahn Jali (Obvious Mistake)

Its definition It is a mistake that occurs to the word, causing its makeup to be disturbed whether the meaning is changed or not.

It is called (jali) obvious because it is a clear defect that all Qur'an scholars and others know.

Its rule It is haram (forbidden) and the reciter is punished when he makes this mistake intentionally or neglects learning although he can do this.

Some of its shapes

﴿ ٱلۡحَمۡدُ لِلَّهِ ﴾

1. Replacing a letter to another: like replacing (ح) to (ه)
2. Replacing vowel (harakah) to another Like replacing taa with Fathah to taa with kasrah ﴿ أَنۡعَمۡتَ ﴾
3. Changing a voweled letter into non _voweled like changing raa with dammah into raa with sukoon when continuing recitation. ﴿ قَالَ سَنَنظُرُ أَصَدَقۡتَ ﴾
4. Changing a non _voweled letter into voweled like changing meem with sukoon into meem with fathah. ﴿ أَنۡعَمۡتَ ﴾
5. Adding a letter or letters or adding a word or words.

Lahn In The Recitation Of The Qur'an

اللَّحنُ في تِلاوةِ القُرآنِ الكَريم

2- Lahn khafi (Hidden)

Its definition It is a mistake that is related to the fluency in pronunciation not correctness.

Some of its shapes Not giving madd or ghunnah their required durations and not pronouncing light and heavy letters properly.

It is called khafi (Hidden) because only Qur'an scholars know it.

Its rule It is makrooh (undesirable).

It is said haram (forbidden) because it disturbs the correct performance.

It can be divided into 2 degrees: If the reciter drops a clear rule, It will be forbidden, If he drops an accurate rule, It will be undesirable.

- Note: The recitation must be preserved from both of these mistakes when it is based on repetition or word of mouth (talaqi or mushafahah).

Ranks Of Recitation (Speeds Of Recitation)

مَراتِبُ التِلاوةِ (سُرعاتُ القِراءةِ)

There are 3 ranks of reciting the Qur'an (speeds):

1 - Tahqiq (Slowness) التَّحْقيق

To make the recitation slow with the highest degree of proficiency and carefulness, It is suitable for education.

2 - Hadr (Quickness) الحدر

It is a quick recitation performed by the reciter without disturbing letters, their articulation points or their characteristics.

In the rank of hadr, the reciter should take 2 things into account:
a- Speed recitation.
b- Proficiency of recitation without ignoring rules nor disturbing them.

3 –Tadwir (moderation) التَّدوير

To make recitation moderate between tahqiq(slowness) and hadr(quickness) .

- Tartil (Recitation) has no specific rank but, It is included in the last three ranks.
  In tartil, the recitation is accompanied by understanding and meditating, with giving letters their rights and dues from characteristics and articulation points, The Qur'an was sent down to act according to its content and to understand and ponder over its verses for Almighty's saying:

﴿كِتَٰبٌ أَنزَلۡنَٰهُ إِلَيۡكَ مُبَٰرَكٞ لِّيَدَّبَّرُوٓاْ ءَايَٰتِهِۦ وَلِيَتَذَكَّرَ أُوْلُواْ ٱلۡأَلۡبَٰبِ﴾ [ص:29].

Seeking Refuge

الاستِعاذة

When the reader wants to recite something from The Book of Allah, he must start with Istiathah (Seeking Refuge) according to Almighty's saying:

﴿فَإِذَا قَرَأْتَ ٱلْقُرْءَانَ فَٱسْتَعِذْ بِٱللَّهِ مِنَ ٱلشَّيْطَٰنِ ٱلرَّجِيمِ﴾ [النحل:98]

whether he recites from the beginning of the surah (chapter) or the middle.

Its definition

In linguistics: Seeking refuge, protection and perservation.

In applied definition: A term is used to seek refuge and protection in Allah from the cursed Satan when reciting the Qur'an.

Formats of Istiathah

أعُوذُ باللهِ مِنَ الشَّيطانِ الرَّجِيمِ

I seek refuge in Allah from the cursed Satan (It is the most popular).

أعُوذُ باللهِ مِنَ الشَّيطانِ الرَّجِيمِ إنَّ اللهَ هو السَّمِيعُ العَلِيمُ

I seek refuge in Allah from the cursed Satan indeed, Allah is the all_hearing and knowing.

أعُوذُ باللهِ السَّمِيعِ العَلِيمِ مِنَ الشَّيطانِ الرَّجِيمِ

I seek refuge in Allah the all _hearing and knowing from the cursed Satan.

Its rule

Mustahabah (Recommended): The saying of the majority of reciters and jurists (it is the most preponderant saying).

Wajibah (Required): The saying of At'aa and Athawri.

It is recommended to say Isti'adhah loudly in the following situations:

1. If the reader recites loudly and others are listening to him.
2. If the reader recites in a group by turns and he is the first reader.

Ranks Isti'adhah (Seeking Refuge)

الاستِعاذة

Benefits of saying Isti'adhah loudly:

1. Clarifying of the start of recitation.
2. Urging the hearer to listen.
3. Evoking the reciter's heart.
4. Expelling the whispers of satans and evil thoughts.

It is recommended to say Isti'adhah quietly in the following situations:

1. If the reader recites alone whether he recites quietly or loudly.
2. If the reader recites in a group by turns and he is not the first reader.
3. If the reader recites in Salah (Prayer) whether he is Imam or Mamum (Leader or Follower).

When Istiathah should be repeated:

Imam Annawawi (May Allah bless his soul) says silence and long conversation are considerd reasons for repeating Isti'adhah.
But, If the recitation was interrupted by words from the Qur'an like correcting mistake or committing mistake or clarifying a meaning of a verse or the recitation was cut off because of sneezing or coughing, he must not repeat Istiathah in these situations.

Ways Of Isti'adhah

أوجُه الاستِعاذة

Linking ist'adhah with the beginning of the surah (chapter):

There are 4 correct and permissible ways of linking ist'adhah with basmalah with the beginning of the surah except surat A'tawbah (Bara'ah).

- **The first way:** cutting off all of them: He stops on ist'adhah and basmalah with taking breath.

أعوذُ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Stopping ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Stopping ﴿ قُلۡ أَعُوذُ بِرَبِّ ٱلنَّاسِ ﴾.

- **The second way:** Joining ist'adhah with basmalah and stopping on it with taking breath. Then, starting with the surah.

أعوذُ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Joining ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Stopping ﴿ قُلۡ أَعُوذُ بِرَبِّ ٱلنَّاسِ ﴾.

- **The third way:** Stopping on ist'adhah and then, joining basmalah with the beginning of the surah.

أعوذُ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Stopping﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Joining ﴿أَلَمۡ نَشۡرَحۡ لَكَ صَدۡرَكَ﴾.

- **The fourth way:** joining all of them: With no stopping.

أعوذُ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Joining ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Joining ﴿أَلَمۡ نَشۡرَحۡ لَكَ صَدۡرَكَ﴾.

Linking ist'adhah with any part of the surah except its beginning:

If the reciter began from within the surah (The middle of the surah) which means after the beginning even if it is after one word, the reciter has the choice to say basmalah or not,but saying it is better.
If the reciter chose to say basmalah, he will join it with ist'adhah by the previous four ways with the beginning of the surah.
If he chose not to say basmalah, he will have two ways:

- **The first way:** Qat' (Cutting off): Stopping on ist'adhah and cutting it off the next verses.

أعوذ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Stopping ﴿ وَلَقَدۡ يَسَّرۡنَا ٱلۡقُرۡءَانَ لِلذِّكۡرِ فَهَلۡ مِن مُّدَّكِرٍ ﴾

- **The second way:** Wasl (Joining):Joining ist'adhah with the next verses.

أعوذ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Joining ﴿ وَلَقَدۡ يَسَّرۡنَا ٱلۡقُرۡءَانَ لِلذِّكۡرِ فَهَلۡ مِن مُّدَّكِرٍ ﴾

Ways Of Isti'atha

أوجُه الاستِعاذة

Note: The priority is to cut Isti'athah off the verse if the verse started with one of the names of Allah or a pronoun refers to Him (glory be to him) or one of the the messenger 's names (peace be upon him) or qualities, It is not correct to say:

- أعوذ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Joining ﴿ٱللَّهُ وَلِيُّ ٱلَّذِينَ ءَامَنُواْ﴾ [البقرة:
- أعوذ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Joining ﴿إِلَيۡهِ يُرَدُّ عِلۡمُ ٱلسَّاعَةِ﴾ [فصلت: 47]
- أعوذ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Joining ﴿مُّحَمَّدٞ رَّسُولُ ٱللَّهِۚ﴾ [الفتح: 29]

When starting with surat A'tawbah (Bara'ah):

If the reciter began with surat A'tawbah (Bara'ah), he should not say basmalah, He has only 2 ways:

The first: cutting ist'adhah off the beginning of the surah.

أعوذ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Stopping ﴿ بَرَآءَةٞ مِّنَ ٱللَّهِ وَرَسُولِهِۦٓ إِلَى ٱلَّذِينَ عَٰهَدتُّم مِّنَ ٱلۡمُشۡرِكِينَ﴾

The second: Joining ist'adhah with the beginning .

أعوذ بِٱللَّهِ مِنَ ٱلشَّيۡطَٰنِ ٱلرَّجِيمِ Joining ﴿ بَرَآءَةٞ مِّنَ ٱللَّهِ وَرَسُولِهِۦٓ إِلَى ٱلَّذِينَ عَٰهَدتُّم مِّنَ ٱلۡمُشۡرِكِينَ﴾

Basmalah (Saying بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ)

البَسمَلة

The rule of basmalah when starting recitation from the beginning of the surah:

It is required to say basmalah at the beginning of the surahs except (surat A'tawbah).

The rule of basmalah when starting recitation from any part of the surah except its beginning:

If the reciter started from within the surah, (Middle of the surah) means after its beginning even if it is after one word, The reciter has a choice to say basmalah or not, but saying it is better and no difference between surat Bara'ah or other, A number of scholars said that basmalah is forbidden when starting from the middle of Surat A'tawbah as it is forbidden at its beginning.

Ways Of Saying Basmalah Between Two Surahs:

There are 3 permissible ways of saying basmalah and 1 impermissible way:

The first way: Cutting off all of them.

﴿ وَمِن شَرِّ حَاسِدٍ إِذَا حَسَدَ ﴾ Stopping ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Stopping ﴿ قُلۡ أَعُوذُ بِرَبِّ ٱلنَّاسِ ﴾.

The second way: Joining all of them:

﴿وَأَمَّا بِنِعۡمَةِ رَبِّكَ فَحَدِّثۡ﴾ Joining ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Joining ﴿ أَلَمۡ نَشۡرَحۡ لَكَ صَدۡرَكَ ﴾.

The third way: Stopping at the end of the surah with taking breath, and then, joining basmalah with the beginning of the next surah.

﴿وَأَمَّا بِنِعۡمَةِ رَبِّكَ فَحَدِّثۡ﴾ Stopping ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Joining ﴿ أَلَمۡ نَشۡرَحۡ لَكَ صَدۡرَكَ ﴾.

The fourth way: The impermissible way: Joining the end of the surah With basmalah and stopping with taking breath, Then, starting from the beginning of the next surah.

﴿ وَمِن شَرِّ حَاسِدٍ إِذَا حَسَدَ ﴾ Joining ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Stopping ﴿ قُلۡ أَعُوذُ بِرَبِّ ٱلنَّاسِ ﴾.

- It is impermissible because the hearer may think that basmalah is a verse included in the first surah because basmalah is legislated at the beginning of surahs not at the end.

Notes:

1. The three mentioned ways are permissible whether the two surahs are consecutive in the Qur'an like the end of Surat Al_Imran with the beginning of surat An_Nisaa or nonconsecutive and the second of them occurs after the first in the arrangment of the Qur'an like the end of Surat Al_Fatiha with the beginning of surat Al_Ma'idah.

2. If the second recited surah occurs first in the arrangment of the Qur'an like reciting surat Yaseen after Al_Mulk, In this case, there are 2 permissible ways:

   a - Cutting off all of them:

   ﴿ ..... فَمَن يَأۡتِيكُم بِمَآءٖ مَّعِينِۢ ﴿٣٠﴾ Stopping ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Stopping ﴿ يسٓ ﴿١﴾ ﴾

   b - Cutting off the first and joining the second with the third:

   ﴿ ..... فَمَن يَأۡتِيكُم بِمَآءٖ مَّعِينِۢ ﴿٣٠﴾ ﴾ Stopping ﴿ بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ﴾ Joining ﴿ يسٓ ﴿١﴾ ﴾

3. If the reciter repeated a surah, these two mentioned ways in the second note will be permissible.

4. If the reciter linked the end of a Surah with the beginning of surat A'tawbah (Bara'ah), there will be 2 cases:

   a - If the first surah is Al_Anfal or any surah occurs before surat A'tawbah in the arrangment of the Qur'an,the reciter will have 3 optional ways without saying basmalah:

   The first way: Qat'(Cutting off)

   ﴿ ..... إِنَّ ٱللَّهَ بِكُلِّ شَيۡءٍ عَلِيمُۢ ﴾ Stopping ﴿ بَرَآءَةٞ مِّنَ ٱللَّهِ وَرَسُولِهِۦٓ إِلَى ٱلَّذِينَ عَٰهَدتُّم مِّنَ ٱلۡمُشۡرِكِينَ ﴾

   The second way: Sakt (slight pause without taking breath)

   ﴿ ..... إِنَّ ٱللَّهَ بِكُلِّ شَيۡءٍ عَلِيمُۢ ﴾ Sakt ﴿ بَرَآءَةٞ مِّنَ ٱللَّهِ وَرَسُولِهِۦٓ إِلَى ٱلَّذِينَ عَٰهَدتُّم مِّنَ ٱلۡمُشۡرِكِينَ ﴾

   The third way: Wasl (Joining) (Taking into account iqlab): Converting noon into meem

   ﴿ ..... إِنَّ ٱللَّهَ بِكُلِّ شَيۡءٍ عَلِيمُۢ ﴾ Joining ﴿ بَرَآءَةٞ مِّنَ ٱللَّهِ وَرَسُولِهِۦٓ إِلَى ٱلَّذِينَ عَٰهَدتُّم مِّنَ ٱلۡمُشۡرِكِينَ ﴾

   b - If the first surah occurs after surat A'tawbah (Bara'ah) in the arrangment of the Qur'an like reciting surat Al_Mulk before A'tawbah, It is permissible only one way (Waqf) stopping with taking breath without saying basmalah, Wasl and sakt are forbidden in this case, If the reciter repeated surat A'tawbah, Wasl and sakt will be also forbidden.

Arabic alphabet

الحُروفُ العَربيَّةُ

The Holy Qur'an consists of(surahs) chapters, the chapters consist of verses (Ayat), the verses consist of words and every word consists of letters so, the smallest unit of the Qur'an is the letter.

ر	ذ	د	خ	ح	ج	ث	ت	ب	ا
ف	غ	ع	ظ	ط	ض	ص	ش	س	ز
	ء	ي	و	ه	ن	م	ل	ك	ق

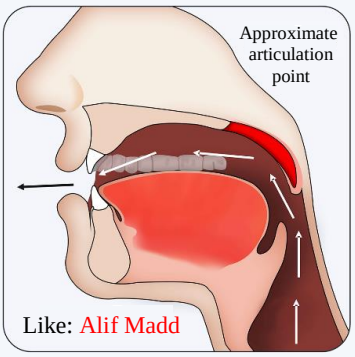

- The letter: a sound depends on specific or approximate articulation point, The letter may be sakin or voweled (with fathah, dammah or kasrah).

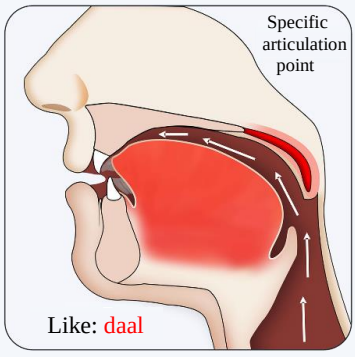

Articulation points of letters

مَخارِجُ الحُروفِ

taiwed2233

- Articulation point in lingustics: The place of articulation.
- In applied definition: The place of articulation of the letter where the sound stops hence, the letter is distinguished from other letters.
- Specific articulation point: It depends on certain part of the throat, the tongue or the lips.
- Approximate articulation point: It does not depend on certain part of the throat, the tongue or the lips, It has no specific point, but it finishes by stopping of exhale (air), It can be prolonged or shortened and three letters of madd are emitted from this articulation point.

How do you know the articulation point of the letter?

1- We can pronounce the letter with sukoon.
2- We admit hamzatul Wasl before the sakin letter.
3- we pronounce the letter and where the sound stops, the articulation point is established.

- Types of articulation points:

There are major articulation points (main) and specific articulation points (minor).
Scholars have three opinions about the number of specific articulation points (minor) that fall under the major articulation points (main).

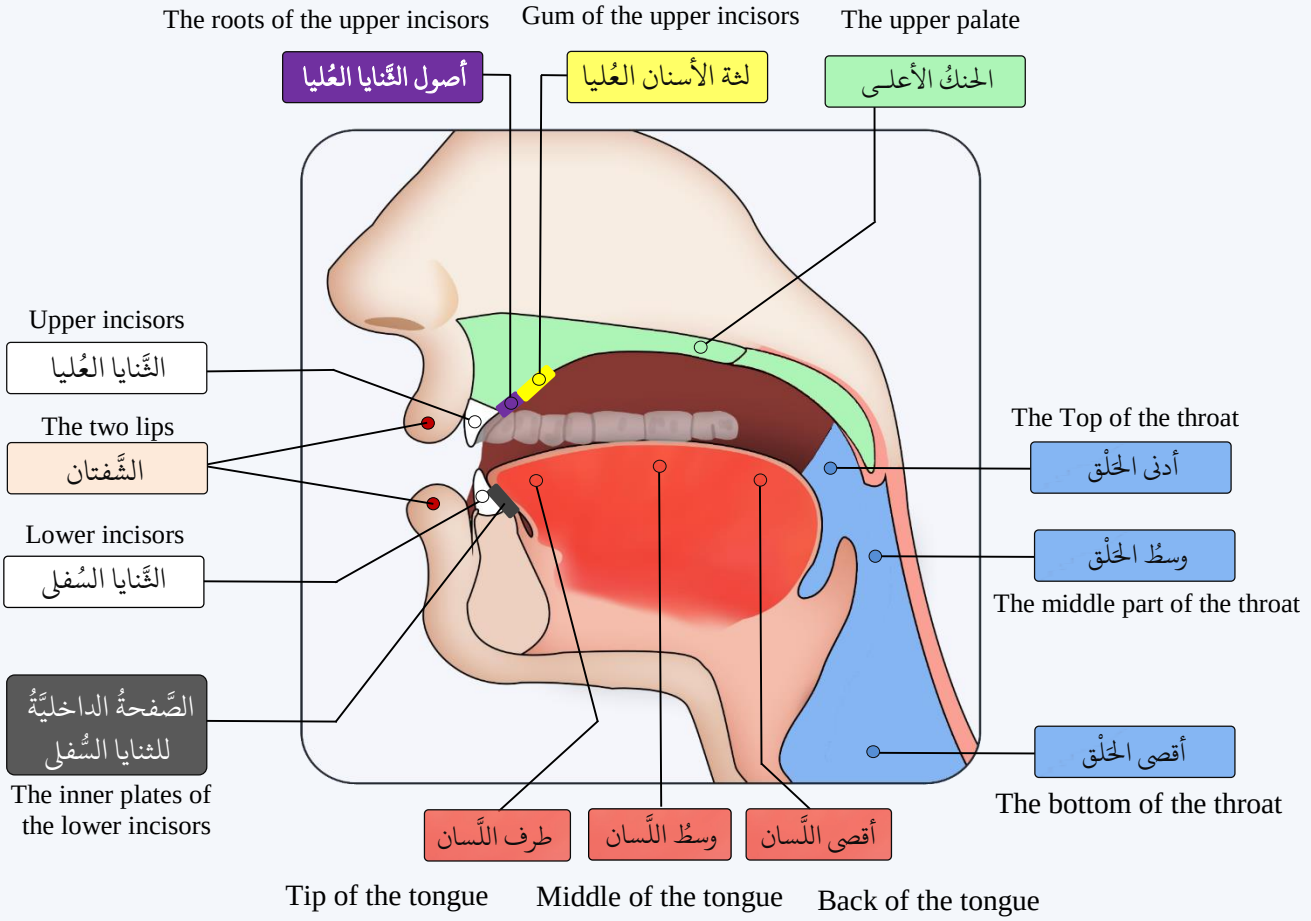

1- There are 17 articulation points: The school of thought is followed by Ibn Al_Gazari and also the majority of scholars as the following:
(1) articulation point from Jawf, (3) articulation points from throat, (10) articulation points from tongue, (2) articulation points from lips and (1) articulation point from nasal cavity.

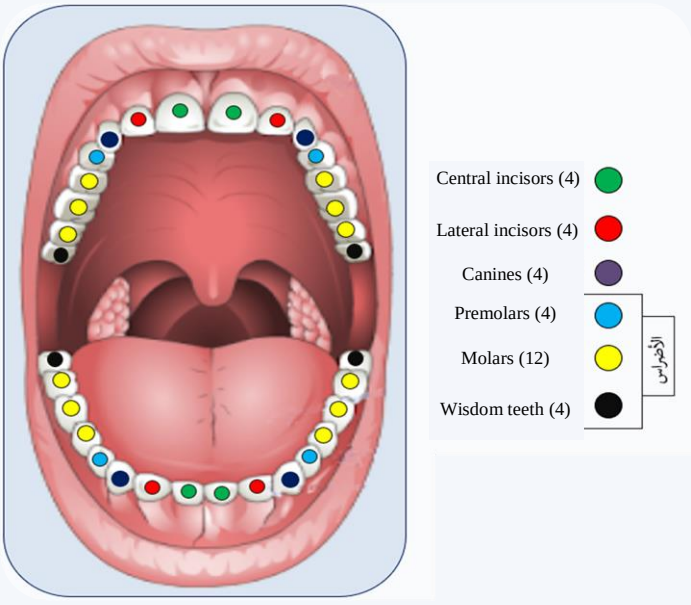

2- There are 16 articulation points: The school of thought is followed by Sibawayh and A'Shatby.
They do not consider Jawf as articulation point. They believe that letters that are emitted from Jawf have the same articulation point of the identical letters in drawing, Alif madd is articulated from the same articulation point of hamzah (throat), waaw madd is articulated from the same articulation point of
non _lengthening waaw (lips) and Yaa madd is articulated from the same articulation point of non_lengthening yaa (the middle of the tongue)

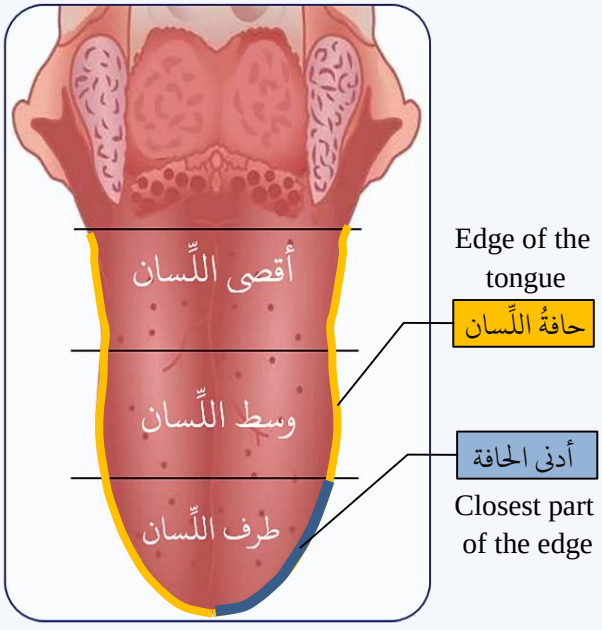

3- There are 14 articulation points: The school of thought is followed by Al_Faraa and Qutrub.
they agree Sybawyh and his followers on disregarding 1 articulation point from Jawf. they add also that laam, raa and noon are emitted from the same articulation point.

Illustrative diagrams of the articulation organs

الصُّورُ التَّوضِيحيةُ لأعضاءِ النُّطقِ

1- Al _Jawf (الجَوفُ)

Its definition

In linguistics: The empty space.

In applied definition: The empty space in the throat and mouth.

Its letters

Three letters of madd (3 lengthening letters):

Alif sakinah is preceded by letter with fathah like:

﴿ قَال﴾، ﴿ وَحَالَ﴾، ﴿أَندَادًا﴾.

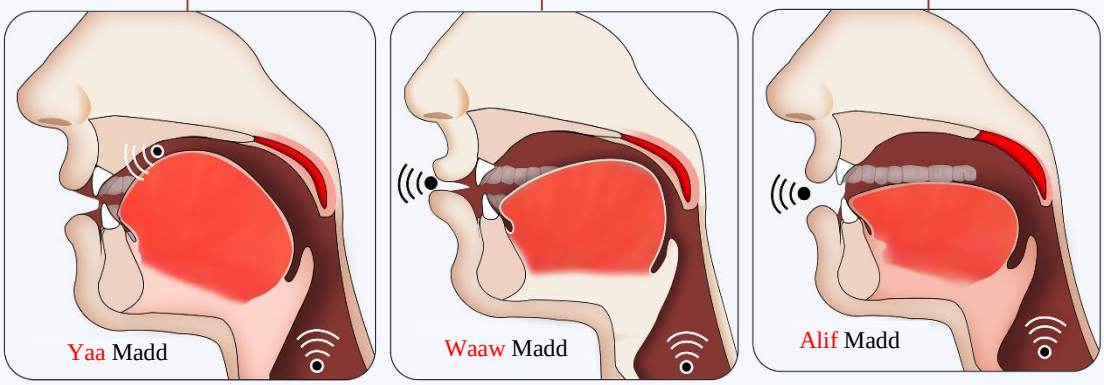

waaw sakinah is preceded by letter with dammah like:

﴿ يَقُول﴾، ﴿ تَحُولُ﴾، ﴿تَتَّقُونَ﴾.

Yaa sakinah is preceded by letter with kasrah like:

﴿ قِيل﴾، ﴿ وَحِيلَ﴾، ﴿صَٰدِقِين﴾.

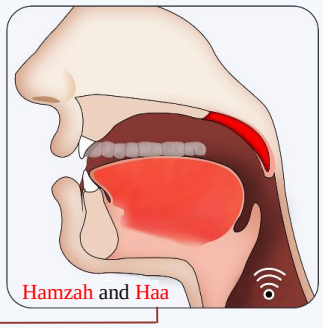

Pictograms

2- The throat (الحَلْقُ)

It means the space between the larynx and the furthest part of the tongue,
It has 3 specific articulation points for 6 letters.

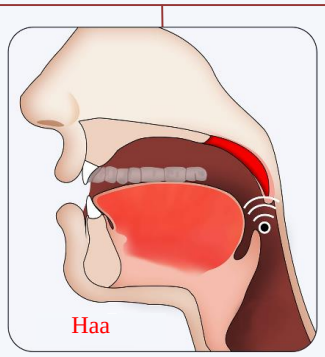

The bottom of the throat

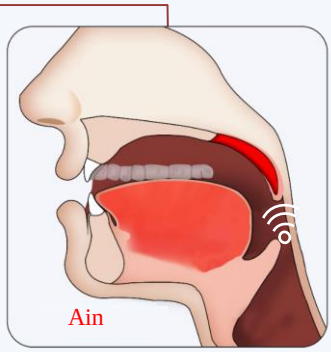

- Hamzah (ء) , Haa (هـ)
- They are articulated from the furthest part of the throat (The area of the vocal cords).
- ﴿ يَأْكُلُ﴾، ﴿ مُؤْمِنٍ﴾، ﴿ أَهْوَآءَهُم﴾، ﴿أَهْلِهَا﴾

The middle part of the throat

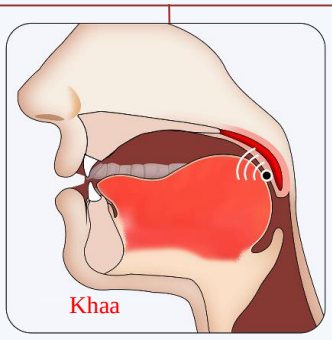

- Ain (ع) , Haa (ح)
- They are articulated from the middle part of the throat (The area of the epiglottis).
- ﴿ أَعْبُد﴾، ﴿ أَعْلَمُ﴾، ﴿ إِحْسَانًا﴾، ﴿أَحْرَصَ﴾

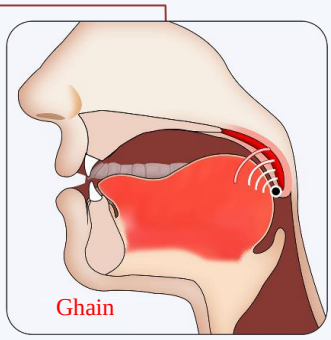

The Top of the throat

- Ghain (غ) , Khaa (خ)
- They are articulated from the closest part of the throat (The area of the root of the tongue).
- ﴿ أَغْنِيَآءَ﴾، ﴿ وَأَغْرَقْنَآ﴾، ﴿ وَأَخْرَجَتِ﴾، ﴿أَخْبَارَهَا﴾

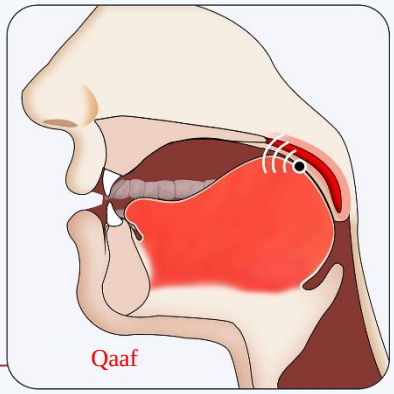

3- The tongue (اللِّسان)

The tongue has 10 specific articulation points for 18 letters.

The furthest part of the tongue

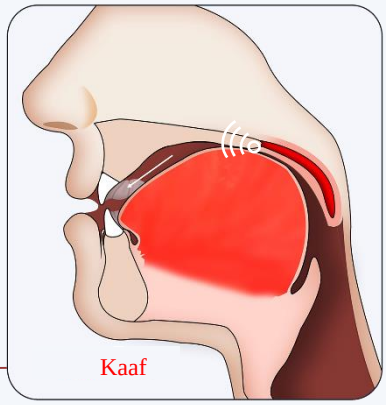

Qaaf (ق)

- is emitted from the furthest part of the tongue with the soft palate(The soft area of the gum of the upper molars).
- ﴿أَقَرَرْتُمْ﴾، ﴿أَقْرَبُ﴾، ﴿أُقْسِمُ﴾

Kaaf (ك)

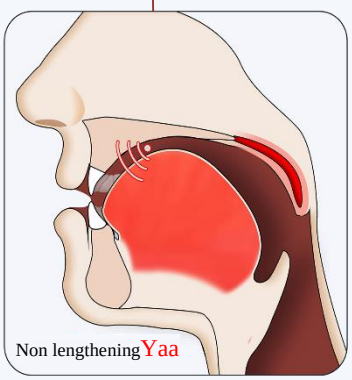

- is emitted from the furthest part of the tongue with the hard and soft palate together (The hard and soft area of the upper palate).
- ﴿أَكْثَرُهُمْ﴾، ﴿أَكْبَرُ﴾، ﴿ٱكْتَسَبُوا۟﴾

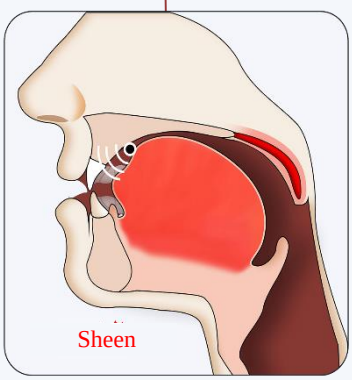

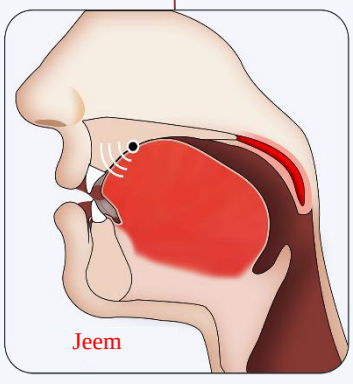

The middle of the tongue

Jeem (ج), Sheen (ش), Non lengthening Yaa (ي)

- are emitted from the middle of the tongue with the middle of the upper palate.
- ﴿أَجْرُهُمْ﴾، ﴿أَجْرٌ﴾، ﴿أَشْهُرٍ﴾، ﴿أَشْتَاتًا﴾، ﴿أَيْمَـٰنِكُمْ﴾، ﴿أَيْدِيهِمْ﴾

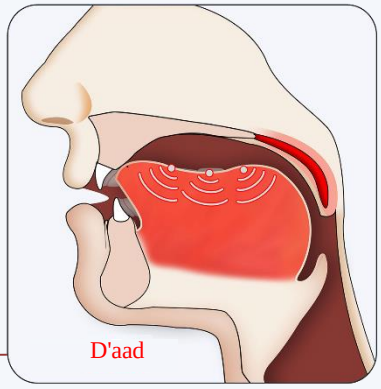

3- The tongue (اللِّسان)

The edge of the tongue

D'add (ض)

Is emitted from one of the edges of the tongue right or left or the two edges together with the upper molars.

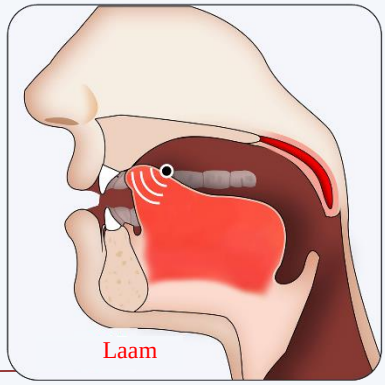

﴿ٱضۡرِب﴾، ﴿أَضۡحَكَ﴾، ﴿أَضۡعَافًا﴾

D'aad

Laam (ل)

Is emitted from the closest part of both edges of the tongue to the utmost tip and what lies opposite to it from the gum of the upper central incisors, lateral incisors, canines and premolars.

﴿قُلۡنَا﴾، ﴿يُلۡقُونَ﴾، ﴿خَلۡفَهَا﴾

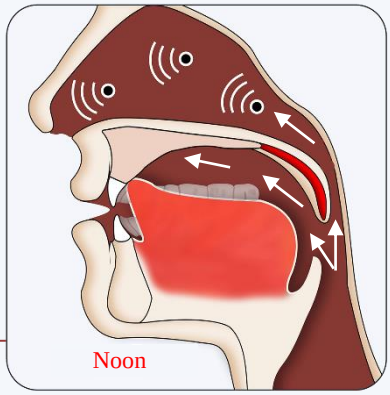

Laam

The tip of the tongue

Noon (ن)

Is emitted from the the tip of the tongue and what lies opposite to it from the gum of the upper incisors, below the articulation point of laam, It is accompanied by ghunnah from the nasal cavity.

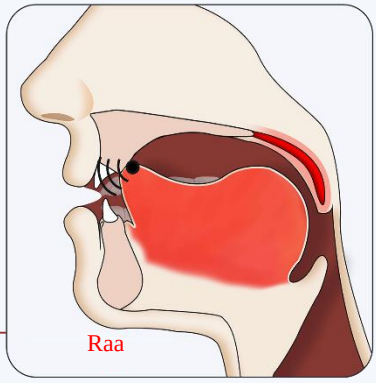

﴿أَنۡعَمۡتَ﴾، ﴿وَتَنۡحِتُونَ﴾، ﴿إِن﴾

Noon

Raa (ر)

Is emitted from the tip of the tongue from the top and what lies opposite to it from the gum of the upper incisors, close to the articulation point of noon.

﴿أَرۡبَعَةً﴾، ﴿أَرۡبَابًا﴾، ﴿أَرۡبَعِينَ﴾

Raa

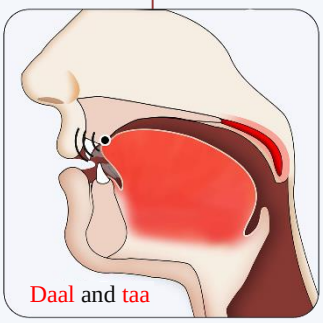

3- The tongue (اللِّسان)

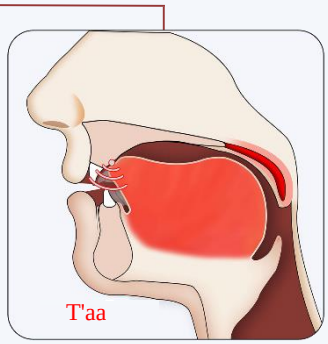

The tip of the tongue

T'aa (ط), daal (د), taa (ت)

are emitted from the tip of the tongue and what lies opposite to it from the gum line of the upper central incisors.

﴿أَطْعَمَهُم﴾، ﴿أَطْوَارًا﴾، ﴿أَدْرَىٰكَ﴾، ﴿أَدْنَىٰ﴾، ﴿أَتْقَىٰكُمْ﴾، ﴿أَتْرَابًا﴾

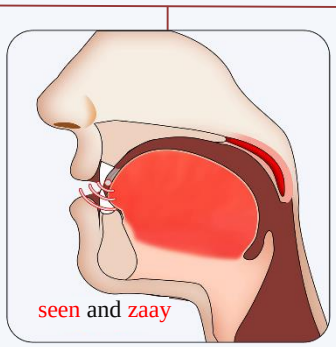

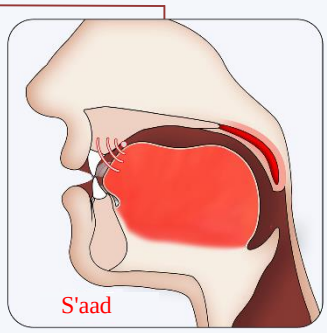

S'aad (ص), seen (س), zaay (ز)

are emitted from the tip of the tongue with the bottom of the inner plates of the lower incisors, The sound is articulated slightly above them passing between the upper and lower incisors.

﴿أَصْحَٰبُ﴾، ﴿أَسْفَلَ﴾، ﴿وَأَسْقَيْنَٰكُم﴾، ﴿أَزْوَاجٌ﴾، ﴿أَزْكَىٰ﴾

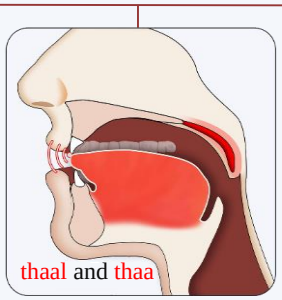

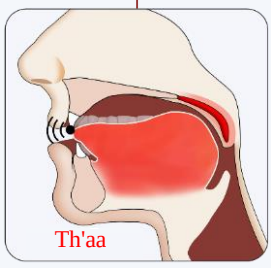

Th'aa (ظ), thaal (ذ), thaa (ث)

are emitted from the tip of the tongue with the tip of the upper central incisors.

﴿أَظْلَمَ﴾، ﴿وَأَظْهَرَهُۥ﴾، ﴿ٱذْكُرُوا۟﴾، ﴿إِذْ﴾، ﴿إِثْمَ﴾، ﴿ٱثْنَتَيْنِ﴾

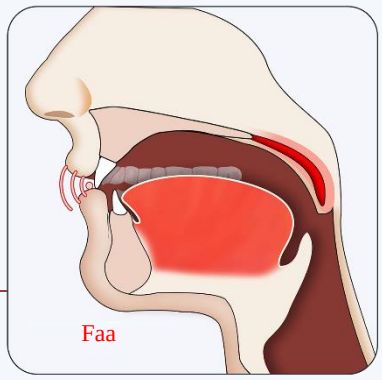

4 - The two lips (الشَّفتان)

This major articulation point includes two specific articulation points for 4 letters:

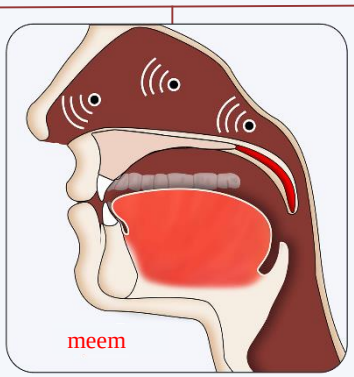

The inside of the lip

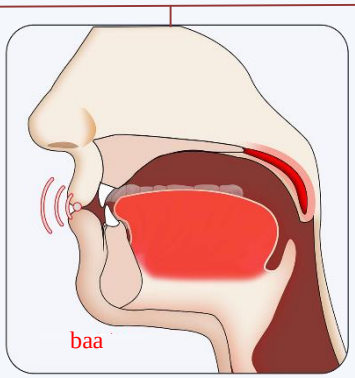

- Faa (ف)
- Is emitted from the inside of the lower lip with the tip of the upper central incisors.
- ﴿أَفْوَاجًا﴾، ﴿أَفْلَحَ﴾، ﴿أَفْنَانٍ﴾

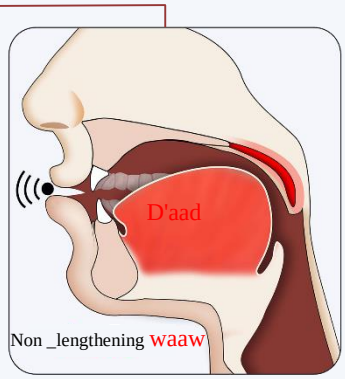

The two lips

- Non _lengthening waaw (و غير مدية), baa (ب) and meem (م)
- are emitted from the two lips by circling the two lips with waaw and closing them with baa and meem, Meem is also accompanied by ghunnah from the nasal cavity.
- ﴿وَٱلْيَوْمِ ٱلْمَوْعُودِ﴾، ﴿إِبْرَٰهِيمَ﴾، ﴿أَبْوَابِهَا﴾، ﴿أَمْرُنَا﴾، ﴿وَأَمْنًا﴾

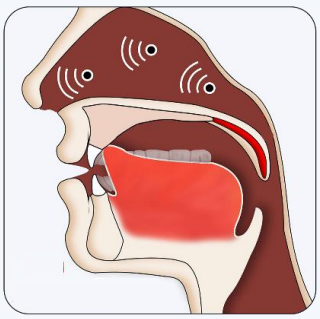

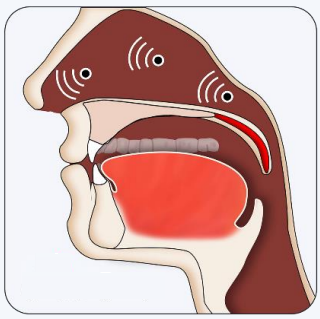

5 – khayshoom (The nasal cavity) (الخَيْشوم)

The nasal cavity is the opening that connects the furthest point of the nose to the throat and Produces ghunnah.

Ghunnah (as a letter):
is a sound is articulated from khayshoom (The nasal cavity) and accompanies noon and meem in all cases.

Meem is not free from ghunnah

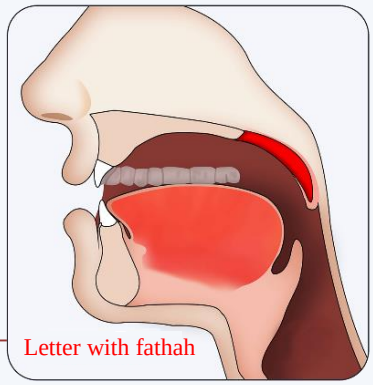

Noon is not free from ghunnah

Completing harakahs (vowels) (إتمامُ الحركات)

Letter with fathah

When the reciter pronounces letter with fathah, he must open his mouth by the same way of pronouncing Alif.

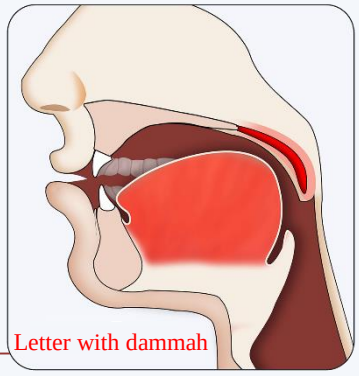

﴿ تَحۡسَبُ ﴾

Letter with fathah

Letter with dammah

When the reciter pronounces letter with dammah, he must circle his lips by the same way of pronouncing Waaw.

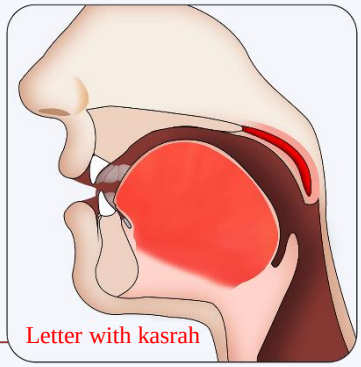

﴿ سُلۡطَٰنِيَهۡ ﴾

Letter with dammah

Letter with kasrah

When the reciter pronounces letter with kasrah, he must drop his lower jaw and raise the middle of the tongue by the same way of pronouncing Yaa.

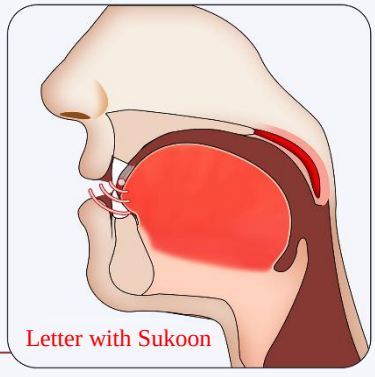

﴿ أُقۡسِمُ ﴾

Letter with kasrah

Letter with Sukoon

Letter with sukoon is emitted from its original articulation point without any of the above.

﴿إِسۡرَارًا﴾

Letter with Sukoon

Characteristics of letters (صِفاتُ الحُروفِ)

Definition of characteristic

In linguistics: Describing something with physical or abstract meanings.

In applied definition: A way is used to describe the letter when it occurs at its articulation point.

Benefits of knowing characteristics: فوائِدُ معرفةِ الصِّفاتِ:

1. To distinguish among letters that share the same articulation point, If these letters don't have different characteristics, they will be the same letter. If there is no isti'laa or itbaq (elevation or adhesion) with s'aad, it will be seen and with no jahr (appearence) with zaay, it will be seen.
2. To beautify the pronunciation of the letter, Giving every letter its required characteristics makes the pronunciation more fluent, perfect and superior, whereas neglecting the characteristics makes the letters overlapped and similar or not clear in pronunciation.
3. To know strong and weak letters, The letter that is characterized by strong qualities, is strong and the letter that is characterized by weak qualities is weak, The letter also may have both strong and weak qualities at the same time so, we judge upon it according to the majority of its characteristics.

Characteristics of letters (صِفاتُ الحُروفِ)

Divisions of characteristics أقسَامُ الصِّفاتِ:

1- **Permanent characteristics (صفاتٌ لازمَة):**
They always accompany the letter in all cases, but they may not appear clearly when pronouncing the letter For example : qalqalah and hams (Vibration and whisper) only appear when pronouncing non _voweled letter.

2- **Temporary characteristics (صفاتٌ عارضة):**
They do not accompany the letter except in certain cases for a reason and they will be removed if the reason is removed Temporary characteristics are 11:

- Idgham(merging) (الإدغام).
- Ithhar(clarity) (الإظهار).
- Qalb(converting) (الإقلاب).
- Ikhfaa(hiding) (الإخفاء).
- Madd(lenghtening) (المَدّ).
- Qasr(shortening) (القَصر).
- Tahrik (With a vowel) (التَّحريك).
- Sukoon (With a sukoon) (السُّكون).
- Sakt (slight pause without breathing) (السَّكت).
- Tafkheem(heaviness) (التَّفخيم).
- Tarqiq (lightness) (التَّرقيق).

Number of permanent characteristics عددُ الصِّفاتِ اللَّازمة:

Scholars have different opinions about the number of characteristics of the letters, The majority of scholars and Ibn Al _Gazari chose in the introduction of Al_Gazariah and Taybat Annshr that they are 17 characteristics and this is the common opinion.

1- Hams VS Jahr (الهَمسُ وضِدُّهُ الجَهر)

Hams

- In linguistics: whisper.
- In applied definition: continuation of breath when pronouncing the letter because of its weakness that originated from depending on the letter at its articulation point.
- Its letters: 10 letters are collected by Ibn Al_Gazari in the phrase (فَحَثَّهُ شَخْصٌ سَكَتَ)
- The reason for this name: Its letters are called (Whispered) because they are articulated by a concealed sound.
- Examples: ﴿ أَفْوَاجًا ﴾، ﴿ٱلرَّحْمَٰنُ﴾، ﴿مِثْقَالَ﴾، ﴿ٱهْدِنَا﴾، ﴿ ٱشْتَرَوُاْ ﴾ ﴿تَخْطَفُ﴾، ﴿سَيَصْلَىٰ﴾، ﴿ٱسْكُنْ﴾، ﴿أَكْبَرُ﴾، ﴿كُوِّرَتْ﴾

Jahr

- In linguistics: To be apparent.
- In applied definition: discontinuation of breath when pronouncing the letter because of its strength that originated from depending on the letter at its articulation point.
- Its letters: 19 The rest of the Arabic alphabet except letters of hams.
- The reason for this name: Its letters are called apparent because they are articulated by a strong and audible sound.
- Examples: ﴿ تَقْرَبَا﴾، ﴿ٱلْعِجْلَ ﴾، ﴿ٱلْأَرْضِ﴾، ﴿ ٱذْكُرُواْ﴾، ﴿عَدْلٌ﴾

- The difference between breath (النَّفَس) and sound (الصَّوت):

  Breath: The air that is emitted from lungs by nature (inhale and exhale).

  Sound: The air that is emitted from lungs, causing vibration as a result of the colliding of two objects or narrowing or closing the passage completely and after that releasing it.

2- Shiddah VS Rakhawah and Tawassut (Moderation) is between them

الشِّدَّةُ وضدُّها الرَّخاوةُ وبينهُما التَّوسُّطُ (البينيَّة)

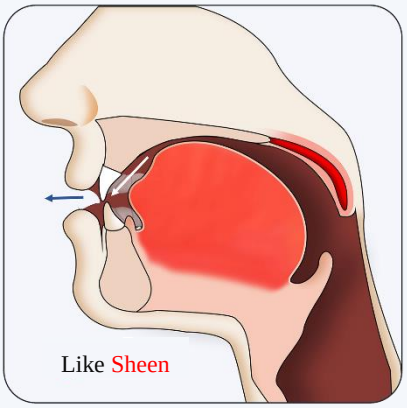

Shiddah

- In linguistics: Strength.
- In applied definition: discontinuation of the sound when pronouncing the letter because its complete reliance on its articulation point.
- Its letters: 8 letters are collected in the phrase (أجِد قَطٍ بَكَت)
- Examples: ﴿تَأۡمُرُوٓنِّيٓ﴾، ﴿تَجۡرِي﴾، ﴿عَدۡلٖ﴾، ﴿يَقۡبَلُ﴾، ﴿يَطۡبَعُ﴾، ﴿يَبۡتَغُونَ﴾، ﴿يَكۡتُبُونَ﴾، ﴿أَتۡقَىٰكُمۡ﴾.

Rakhawah

- In linguistics: softness.
- In applied definition: continuation of the sound when pronouncing the letter because its weak reliance on its articulation point.
- Its letters: They are 16 letters except letters of Shiddah and Tawassut.
- Examples: ﴿أَشۡتَاتٗا﴾، ﴿تَحۡمِلُ﴾، ﴿فَيَذۡهَبُ﴾

Tawassut (moderation)

- In linguistics: moderation.
- In applied definition: The sound is moderate between Shiddah and Rakhawah when pronouncing its letters because It's partially (imprisoned) as in Shiddah and partially (running) as in Rakhawah.
- Its letters: They are 5 letters collected in the phrase (لِنْ عُمَر)
- Examples: ﴿عِلۡمَ﴾، ﴿وَٱلۡأٓخِرَ﴾، ﴿تَعۡلَمُونَ﴾، ﴿ٱلۡحَمۡدُ﴾، ﴿وَٱرۡكَعُواْ﴾

Measure of timings of Letters

Non_voweled letters

Timing of soft letter is longer than moderate letter and timing of moderate letter is also longer than strong letter

Timing of soft letter

Timing of moderate letter

Timing of strong letter

Voweled letters

Timings of voweled letters are equal like: ﴿كُتِبَ﴾

بِسۡمِ ٱللَّهِ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ

أَلَمۡ نَشۡرَحۡ لَكَ صَدۡرَكَ ۝١ وَوَضَعۡنَا عَنكَ وِزۡرَكَ ۝٢

ٱلَّذِيٓ أَنقَضَ ظَهۡرَكَ ۝٣ وَرَفَعۡنَا لَكَ ذِكۡرَكَ ۝٤

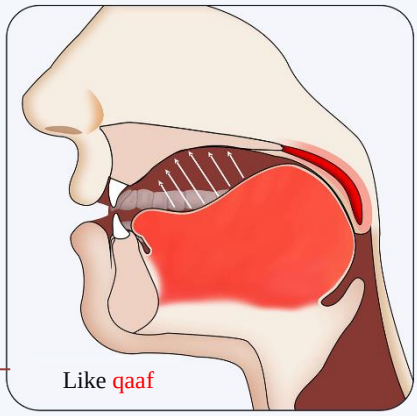

فَإِنَّ مَعَ ٱلۡعُسۡرِ يُسۡرًا ۝٥ إِنَّ مَعَ ٱلۡعُسۡرِ يُسۡرًا ۝٦

فَإِذَا فَرَغۡتَ فَٱنصَبۡ ۝٧ وَإِلَىٰ رَبِّكَ فَٱرۡغَب ۝٨

3- Ist'laa VS Istifaal (الإستِعلاءُ وضِدُّهُ الإستِفالُ)

Ist'laa

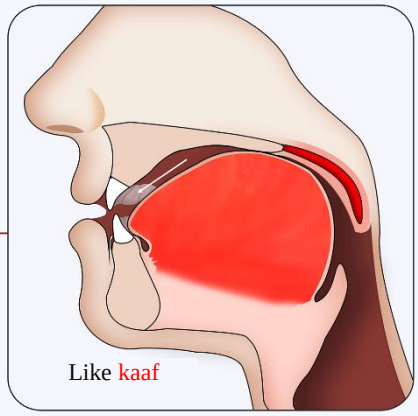

- In linguistics: Raising and elevating.
- In applied definition: Raising the furthest part of the tongue to the roof of the mouth when pronouncing the letter so, the sound is also raised.
- Its letters: 7 letters are collected by the regulator in (خُصَّ ضَغْطٍ قِظْ)
- Examples: ﴿ نَنسَخۡ ﴾، ﴿وَٱصۡفَحُواْ﴾ ﴿يَضۡرِبَ﴾، ﴿نَّغۡفِرۡ﴾، ﴿شَطۡرَ﴾،﴿وَٱرۡزُقۡ﴾ ﴿أَظۡلَمُ﴾، ﴿وَٱرۡزُقۡ﴾، ﴿أَظۡلَمُ﴾.

Like qaaf

Istifaal

- In linguistics: lowering.
- In applied definition: lowering the furthest part of the tongue to the floor of the mouth when pronouncing the letter.
- Its letters: They are 22 letters except letters of elevation.
- Examples: ﴿تَكۡسِبُونَ﴾، ﴿تُتۡلَىٰ﴾

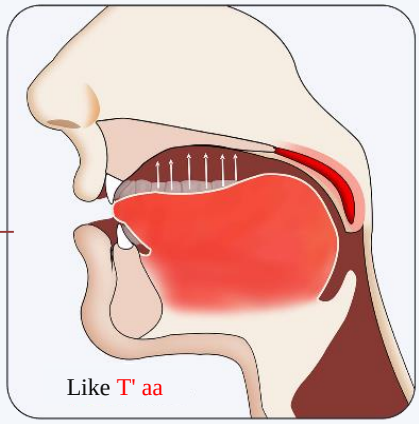

Like kaaf

4 - It'baq VS Infitah (الإطباقُ وضِدُّهُ الِانفتاحُ)

It'baq

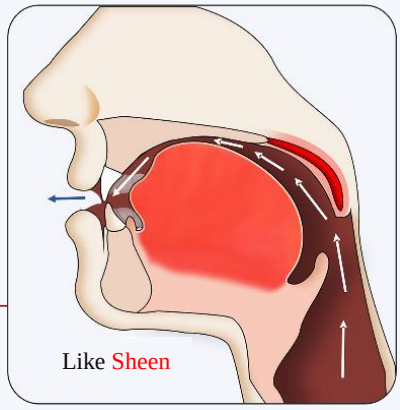

- In linguistics: adhesion.
- In applied definition: compression of the sound of the letter between the tongue and the roof of the mouth when pronouncing the letter.
- Its letters: They are 4 letters (ظ ، ط ، ض ، ص)
- Examples: ﴿أَصۡحَٰبُ﴾، ﴿فَضۡلٖ﴾ ﴿شَطۡرَ﴾، ﴿أَظۡلَمَ﴾.

Like T' aa

Infitah

- In linguistics: Separation.
- In applied definition: Absence of the compression of the sound as a result of Separating between the tongue and the roof of the mouth
- Its letters: They are the rest of the alphabetical letters except letters of It'baq.
- Examples: ﴿أَشۡتَاتٗا﴾،﴿ٱلۡأَسۡوَدِ﴾،﴿بَعَثۡنَا﴾

Like Sheen

Note: The elevated and closed letter (ظ ، ط ، ض ، ص) is heavier than the elevated and opened letter (ق ، خ ، غ)

﴿ضَاحِكَةٌ﴾ is heavier than ﴿غَاسِقٍ﴾

﴿وَطُبِعَ﴾ is heavier than ﴿وَقُومُواْ﴾

﴿عَظِيمَ﴾ is heavier than ﴿وَخِيفَةً﴾ ،﴿وَغِيضَ﴾ ،﴿قِيلَ﴾

5 - Ithlaq VS Is'mat (الإذلاقُ وضِدُّهُ الإصماتُ)

Ithlaq

- In linguistics: Eloquence and fluency of the tongue
- In applied definition: Light and quick pronunciation of the letter because it is emitted from the tip of the tongue or the lips.
- Its letters: They are 6 letters collected by the regulator in the phrase (فِرَّ مِنْ لُبِّ)
- Examples: ﴿تَفْعَلُوا﴾، ﴿أَبْصَٰرِهِمْ﴾

I'smat

- In linguistics: prevention.
- In applied definition: Heavy and difficult pronunciation of the letter because its articulation point is away from the tip of the tongue and the lips.
- Its letters: They are the rest of the letters except letters of Ithlaq.

Note: These two characteristics are derived from morphology and they have no influence on pronunciation.

Characteristics with no opposites

صفاتٌ ليسَ لها ضِدٌّ

1- S'afir

- In linguistics: A whistle that looks like the sound of bird.
- In applied definition: A Whistle accompanies letters of Safir that refers to its sharp sound.
- Its letters: They are 3 letters (ص ، ز ، س)
- It is called by this name: Because when letters of safir are pronounced, It can be heard a sound like the whistle of bird.
- Examples: ﴿ٱلۡفَصۡلِ﴾، ﴿وَٱصۡفَحُواْ﴾، ﴿رِزۡقَهُۥ﴾، ﴿بِٱلۡهَزۡلِ﴾، ﴿يَسۡمَعُونَ﴾

- Note: Amongst common mistakes when pronouncing S'aad is circling lips, Lips do not play any role in emitting S'aad neither from the articulation point nor the characteristic.

2- Qalqalah

- In linguistics: disturbance.
- In applied definition: The letter is disturbed at its articulation point when it is pronounced with Sukoon, producing a strong tone.
- Its letters: They are 5 letters collected in (قُطْبُ جَدٍّ)
- Examples: ﴿ٱلۡحَقُّ﴾، ﴿ أَطۡعَمَهُم﴾، ﴿وَتَبَّ﴾، ﴿تَجۡعَلۡ ﴾، ﴿لَمۡ يَلِدۡ﴾

Qalqalah has 3 ranks:

- 1 -Major qalqalah: When the letter of qalqalah comes at the end of the word with shaddah sign and we stop on it.
  ﴿ٱلۡحَقُّ﴾، ﴿وَتَبَّ﴾، ﴿ٱلۡحَجَّ﴾، ﴿أَشَدُّ﴾.
- 2 -Medium qalqalah: When the letter of qalqalah comes at the end of the word with no shaddah sign and we stop on it.
  ﴿تُخۡلَقۡ﴾، ﴿بِٱلۡقِسۡطِ﴾، ﴿ٱضۡرِب﴾، ﴿بَهِيجٍ﴾، ﴿يُولَدۡ﴾
- 3 -Minor Qalqalah: When the letter of qalqalah comes in the middle of the word or words with sukoon sign.
  ﴿نَقۡعًا﴾، ﴿ أَطۡعَمَهُم﴾، ﴿حَبۡلٌ﴾، ﴿تَجۡعَلۡ﴾، ﴿يَدۡخُلُونَ﴾،
  ﴿تُخۡلَقۡ مِثۡلُهَا﴾، ﴿تُسۡقِطۡ عَلَيۡكِ﴾ ﴿ٱذۡهَبۡ إِلَىٰ﴾، ﴿تَخۡرُجۡ بَيۡضَآءَ ﴾. ﴿قَدۡ أَفۡلَحَ﴾.

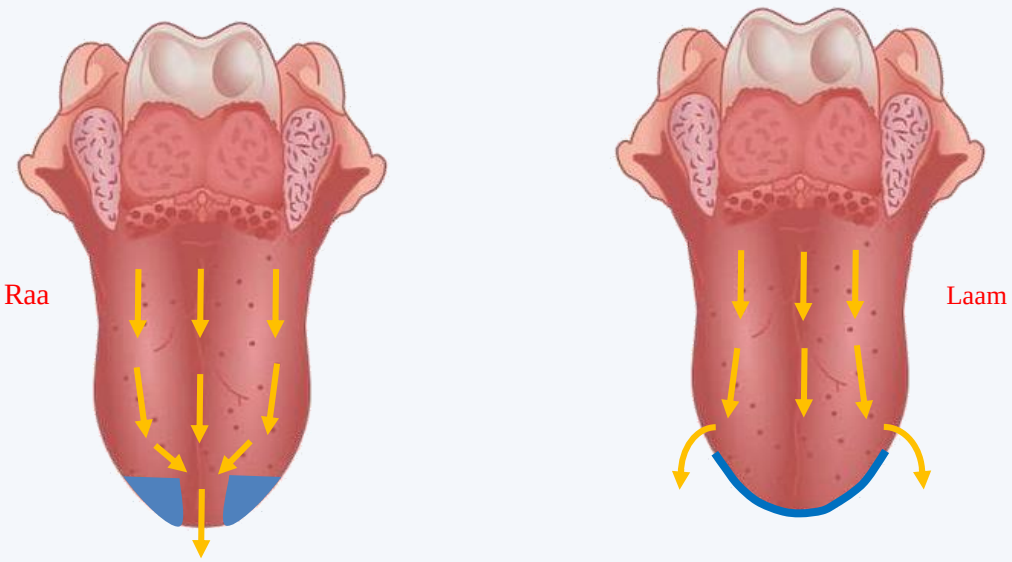

- Note: Qalqalah is not applied to the merged letter, like:
  ﴿ٱضۡرِب بِّعَصَاكَ﴾، ﴿وَقَد دَّخَلُواْ ﴾، ﴿قَد تَّبَيَّنَ﴾، ﴿ بَسۡطَتَ﴾، ﴿فَرَّطتُمۡ﴾.

3- Leen

- In linguistics: Ease.
- In applied definition: Emitting the letter from its articulation point easily and with no effort from the tongue.
- Its letters: They are 2 letters (و ، ي) Waaw and Yaa sakinah are preceded by fathah.
- It is called by this name: Because its letters are emitted with softness and ease and with no effort from the tongue.
- Examples: ﴿خَوۡفٖ﴾،﴿يَوۡمِ﴾، ﴿ٱلۡبَيۡتِ﴾،﴿عَيۡنٖ﴾

4- Inhiraf

- In linguistics: Deviation.
- In applied definition: Drifting the sound of the letter when it is articulated because of Incomplete running where the tongue blocks its path.
- Its letters: (ل ، ر).
- It is called by this name: Because after emitting its letters from their articulation points, their sounds drift until they connect to the articulation point of the other letters.
- Examples: ﴿فَلۡيَعۡبُدُواْ﴾،﴿فَلۡيَدۡعُ﴾، ﴿ٱرۡجِعِيٓ﴾،﴿يَرۡضَىٰ﴾

5- Takrir

- In linguistics: Repetition.
- In applied definition: The trilling of the tip of the tongue when pronouncing the letter.
- Its letters: is only letter (ر).
- It is called by this name: Because the tip of the tongue trills when pronouncing the letter.
- Examples: ﴿ٱلْقُرْءَانَ﴾، ﴿وَمَرْيَمَ﴾، ﴿قَرْضًا﴾

• Note: The reciter must Pay attention not to exaggrate the repitition because he may produce more than one raa.

6- Tafashy

- In linguistics: Spreading out.
- In applied definition: Spreading out the breath through the mouth when pronouncing the letter until it reaches the inner plates of the upper incisors.
- Its letters: is only letter (ش).
- It is called by this name: Because the breath is spread out through the mouth when pronouncing the letter.
- Examples: ﴿نَشْهَدُ﴾، ﴿وَأَشْهِدُوا۟﴾، ﴿تَشْكُرُونَ﴾

7- Istitalah

- In linguistics: Lengthening.
- In applied definition: Lengthening the sound of D'aad at its articulation point from the edge of the tongue (from the back to the front) until it touches the articulation point of laam (where the tip of the tongue slightly touches the gum of the central incisors, lateral incisors, canines and premolars).
- Its letters: is only letter (ض) ر .
- It is called by this name: Because its letter is lengthened at its articulation point from the back part of the edge of the tongue to its tip.
- Examples: ﴿ٱلضَّآلِّينَ﴾، ﴿أَضْعَفُ﴾، ﴿ٱلْأَرْضِ﴾

Note: Some scholars added another characteristics of the letters, , highlighting ghunnah (nasalization) with (meem and noon), We will explain it in the subject of timings of letters in Page N. 50

Strong and Weak characteristics

الصِّفاتُ القويةُ والصِّفاتُ الضَّعيفةُ

According to strength and weakness, characteristics can be divided into 3 sections:

Strong characteristics They are (11): Jahr, Shiddah, Isti'laa, It'baq, Safir, Qalqalah, Inhiraf, Takrir, Tafashy, Istitalah and Ghunnah.
(Appearence, Strength, Elevation, Adhesion, Whistle, disturbance, Deviation, Repitition, Spreading out, Lengthening and nasalization).

Weak characteristics They are (6): Hams, Rakhawah, Istifaal, Infitah, Leen and khafaa.
(Whisper, softness, lowering, Separating, ease and hiding)

Characteristics that are not characterized by strength or weakness:

They are (3): Ismat, Ithlaq and Tawassut (Prevention, Fluency and moderation)

- According to strength and weakness, Letters can be divided into 5 sections:
  1-Strongest: All its characteristics are strong.
  2- Strong: Most its characteristics are strong.
  3- Moderate: Its strong characteristics are equal to the weak characteristics.
  4- Weak: Most its characteristics are weak
  5-Weakest: All its characteristics are weak.

- Question: How do you find out the characteristic of the letter?
  Answer:
  1-For the characteristics with Opposites: Try to find one of them otherwise, the letter is characterized by one of their opposites.
  2-Then, For the characteristics with no opposites: IF the letter is characterized by one of them, we count this characteristic added to the five previous ones.
  3-And then, We look at the degree of the letter through its characteristics and according to this, It will be strong or weak.

- Note:
  1-Any of the alphabetical letters must be characterized by five of (characteristics with Opposites) and then it may have 1 or 2 or None of (characteristics with no opposites) .
  2-The single letter has 7 characteristics as maximum and have 5 characteristics as minimum.

The most prominent mistakes when pronouncing Letters of the Alphabet

أبرَزُ الأخطاءِ عِندَ نُطقِ حروفِ الهجاءِ

- Mistakes are made when pronouncing Alif:

1- Not opening mouth as required like: ﴿مُوسَىٰ﴾

2- Making it heavy where it should be light like: ﴿ٱلنَّهَارَ﴾، ﴿ ٱلنَّارِ ﴾

Rules of Noon sakinah and Tanween

أحكامُ النُّونِ السَّاكِنَةِ والتَّنوِينِ

This subject is so important because Noon sakinah and Tanween are mentioned many times in the Holy Qur'an. Note that Noon comes in three cases in the Qur'an :

1- Mushaddadah (Stressed) like: ﴿ ٱلْجَنَّةَ ﴾،﴿أَنَّ﴾

2- Mutaharekah (voweled) like: ﴿ نَعْبُدُ ﴾، ﴿تَعْلَمُونَ﴾، ﴿دِينِ ﴾

3-Sakinah (non_voweled) like: ﴿أَنْعَمْتَ﴾، ﴿مَنْ تَخْشَىٰ﴾، ﴿مِنْ بَعْدِ﴾، ﴿يَنظُرُونَ﴾ and It's intended.

Noon sakinah

Definition: Noon is with no harakah (with no sign or with Sukoon sign above), It is constant in continuing recitation or stopping and pronouncing or writing, It is extra or from the origin of the word, It comes also in the Middle of the word or at the end.

Examples: ﴿ يَنظُرُونَ ﴾، ﴿ ٱنكَدَرَتْ ﴾، ﴿سُنْدُسٍ ﴾، ﴿أَنْعَم﴾ ، ﴿ مِّن ﴾

Tanween

Definition: extra noon sakinah is not used for emphasis, pronounced not written at the end of nouns and found in continuing the recitation not stopping It's sign is doubling vowels.

Examples: ﴿سِرَاجًا وَهَّاجًا﴾، ﴿قَوْمٍ هَادٍ﴾، ﴿وُجُوهٌ يَوْمَئِذٍ﴾، ﴿غَفُورٌ حَلِيمٌ ﴾

Comparison between Noon sakinah and tanween		
	Noon sakinah	Tanween
1	Noon sakinah occurs in the Middle of the word or at the end	Only at the end of the word
2	In nouns, verbs and articles	Only in nouns
3	It is constant in the case of continuing recitation or stopping	Only in the case of continuing recitation
4	It is constant in pronouncing and writing	Only in pronouncing
5	May be from the origin of the word or extra	Only extra not from the origin of the word.

Rules of Noon sakinah and Tanween

أحكامُ النُّونِ السَّاكِنَةِ والتَّنوِينِ

Rules of Noon sakinah and Tanween

Noon sakinah and Tanween have 4 rules when they are followed by any of the alphaphetical letters

1. Ithhar (clarity):Its letters: (ء ه ع ح غ خ)
2. Idgham (merging): Its letters: are collected (يَرْمُلُون)
   - With ghunnah: (ينمو)
   - Without ghunnah: (ر ل)
3. Iqlab (converting): Its letters: is only (ب)
4. Ikhfaa(hiding): Its letters: (are the rest of the letters)

1-Ithhar (throat clarity) (الإظهار)

definition of Ithhar

In linguistics: clarity and manifestation.

In applied definition: pronouncing Noon sakinah or Tanween from its articulation point without excessive ghunnah.

Letters of Ithhar

If noon sakinah or tanween is followed by one of the six throat letters: (ء ، هـ ، ع ، ح ، غ ، خ) ithhar must be done, It is called (ithhar halqy). Some scholars gathered them in the first letter of each word in the following phrase (أَخِي هَاكَ عِلْمًا حَازَه غَيْرُ خَاسِرٍ)

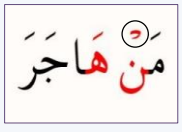

- It is called throat clarity: because all six letters are emitted from throat
- The cause of Ithhar: The articulation point of Noon sakinah is far from the articulation point of these letters.
- The method of pronunciation:To Pronounce Noon sakinah or Tanween clearly with no apparent ghunnah and avoid cutting off or slight pausing without taking breath, The characteristic of tawassut (moderation) that occurs between sheddah and Rakhawah (strength and softness) should be also applied.

For Noon sakinah:

For Tanween:

2- Idgham (merging) (الإدغام)

Definition of Idgham

In linguistics: Inserting something into another.

In applied definition: Inserting non voweled letter into voweled letter and making them as one mushaddad letter as the second.

Letters of Idgham

Noon sakinah or tanween is merged into the next letter when it is followed by one of the six letters that are collected in a word:(يَرْمُلُون) (ي، ر، م، ل، و، ن)

- Notice: Merging noon sakinah or tanween only occurs in two words.

It Is divided into:

1- Idgham with ghunnah

It is accompanied by clear nasal sound (ghunnah), Its letters are collected in a word (يَنْمُو) (ي، ن، م، و)

Letters	Letter of idgham with noon sakinah		With tanween	
Yaa	وَمَن يَعْمَلْ	مَن يَخْشَىٰ	لِّقَوْمٍ يَتَفَكَّرُونَ	وُجُوهٌ يَوْمَئِذٍ
Noon	لَن نَّدْخُلَهَا	إِن نَّفَعَتِ	شَيْءٍ نُّكُرٍ	عِظَٰمًا نَّخِرَةً
Meem	مِن مَّالٍ	مِّن مَّسَدٍ	صُحُفًا مُّطَهَّرَةً	نَفْسٍ مَّا
Waaw	مِن وَالٍ	مِّن وَرَآئِهِمْ	وَوَالِدٍ وَمَا وَلَدَ	سِرَاجًا وَهَّاجًا

2- Idgham without ghunnah

It is not accompanied by nasal sound (ghunnah), Its two letters are (ل، ر)

Letters	Letter of idgham with noon sakinah		With tanween	
Laam	مِن لَّدُنْهُ	يَكُن لَّهُۥ	هُدًى لِّلْمُتَّقِينَ	مَالاً لُّبَدًا
Raa	مِّن رَّبِّهِمْ	مِن رَّحِيقٍ	عِيشَةٍ رَّاضِيَةٍ	غَفُورٌ رَّحِيمٌ

According to completeness and incompleteness, Idgham can be divided into two types

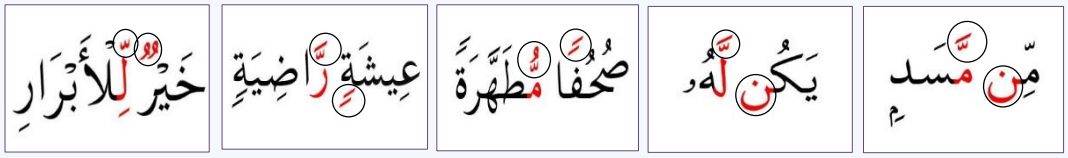

1 - complete Idgham: To merge Noon sakinah or Tanween completely into the next letter without any trace of Noon left, Its letters are collected in a word (نرملى) (ن ، ر ، م، ل).

2 - Incomplete Idgham: To merge Noon sakinah or Tanween and remain the characteristic of ghunnah, Its letters are (ي ، و).

- Accordingly, Idgham can be divided into 3 types:
  - Idgham with ghunnah:
    - complete Idgham Its letters are (م ، ن). ①
    - incomplete Idgham Its letters are (و ، ي). ②
  - Idgham without ghunnah:
    - complete Idgham Its letters are (ر ، ل). ③

Sign of Idgham in the Qur'an

Sign of Noon sakinah or Tanween in the case of (complete Idgham) into letters (ن، م، ل، ر)
(Placing shaddah sign above the letter that follows noon sakinah or tanween.)

Sign of Noon sakinah or Tanween in the case of (Incomplete Idgham) into letters (و، ي)
(Placing vowel [fathah _kasrah_dammah] above the letter that follows noon sakinah or tanween.)

Two notes

1 - Noon sakinah is not merged into (waaw or Yaa) if they met in one word
They are only 4 words in the Qur'an:

﴿ قِنْوَانٌ ﴾[الأنعام: 99]. ﴿ صِنْوَانٌ ﴾[الرعد: 4] .

﴿ ٱلدُّنْيَا﴾ wherever it occurs ﴿ بُنْيَـٰنٌ ﴾ wherever it occurs

Merging is not applied to these words to follow(Imam Hafs) in this narration and keep their meanings away from confusion and misunderstanding.

2 - Hafs on the authority of Asim by the way of Ash_shaatibiyyah doesn't merge Noon into waaw in continuing recitation between two words:

- ﴿ يسٓ ۝١ وَٱلْقُرْءَانِ ٱلْحَكِيمِ ﴾[يس: 1-2].

Noon is pronounced clearly (يَا سِينْ وَالقُرءانِ)

- ﴿ نٓ ۚ وَٱلْقَلَمِ وَمَا يَسْطُرُونَ ﴾[القلم: 1].

Noon is pronounced clearly (نُونْ وَالقَلَمِ وما يَسْطُرُون)

Noon is not merged into raa in Almighty's word: ﴿وَقِيلَ مَنْ رَاقٍ﴾

Because of Sakt (slight pause without taking breath)that prevents Idgham, according to the narration

3- Iqlab (converting) (الإقلاب)

definition of Iqlab

In linguistics: converting something into another.

In applied definition: converting Noon sakinah or Tanween into hidden meem with ghunnah when it is followed by letter (ب).

Letters of Iqlab

Letters of Iqlab is only baa (ب).

- Method of pronunciation:
  To make your lips touch each other gently. Don't leave a gap nor make your lips over pressed against each other. So, It will differ from pronouncing meem merged into another meem.

Examples

Noon sakinah	in one word	أَنۢبِـُٔونِي	ٱلْأَنۢبَآءُ	لَيُنۢبَذَنَّ	فَأَنۢبَتْنَا
	In two words	مِنۢ بَيْتِكَ	مِنۢ بَعْضِ	مِنۢ بَقْلِهَا	مِنۢ بَعْدِ
Tanween		سَمِيعٌۢ بَصِيرٌ	نَفْسٍۢ بِمَا	عُتُلٍّۭ بَعْدَ	سَمِيعًۢا بَصِيرًا

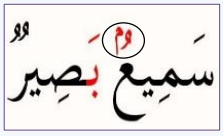

Sign of Iqlab in the Qur'an

In Noon sakinah: putting tiny meem above noon instead of Sukoon.

In Tanween: putting tiny meem instead of the second vowel (that vowel refers to Tanween).

4- Ikhfaa (Hiding) (الإخفاء)

Definition of Ikhfaa

In linguistics: hiding.

In applied definition: pronouncing noon sakinah or tanween in a way so that the sound is between Ithhar and Idgham, stripped of any Shaddah with a ghunnah remaining in the first letter.

Letters of Ikhfaa

Noon sakinah or tanween is hidden and accompanied by a ghunnah when it is followed by one of the 15 letters.
They are the rest of the alphabetical letters after excluding letters of Ithhar, idgham and iqlab

The regulator collected them in the first letter of each word in the following verse :

صِفْ ذَا ثَنَا كَمْ جَادَ شَخْصٌ قَدْ سمَا دُم طيِّبًا زِدْ فِي تُقىً ضَعْ ظَالِمًا

- Hiding noon sakinah and tanween is called as real hiding.
- The method of pronunciation: Placing the Tongue in a position close to the articulation point of the next letter.

Levels of Ikhfaa

Ikhfaa has different levels of strength depending on the closeness or farness of the articulation point of Ikhfaa letter to noon, Whatever the articulation point of noon sakinah or tanween is Closer to the articulation point of Ikhfaa letters, whatever ikhfaa is stronger.

1 - The heighest level of Ikhfaa with (ت ، د ، ط).

2 - The intermediate level of Ikhfaa with 10 letters:
(ص، ذ ، ث ، ج ، ش، س، ز ، ف ، ض، ظ)

3 - The lowest level of Ikhfaa (closer to Ithhar) with (ق ، ك).

- Special care with ghunnah to be heavy or light according to the following letter If Noon sakinah or Tanween is followed by heavy letter,Gunnah should be heavy, If they are followed by light letter, Gunnah should be light.

Gunnah is followed by light letter	Gunnah is followed by heavy letter
مَّنثُورًا	بِرِيحٍ صَرْصَرٍ

فَمَن ثَقُلَتْ	شَيْءٍ قَدِيرٌ
مِّن جُوعٍ	يَنظُرُونَ

Sign of Ikhfaa in the Qur'an

The same sign of Incomplete Idgham as well as Ikhfaa can take place in one word like ﴿ إِن كُنتُمۡ ﴾

Letter of Ikhfaa	For Noon sakinah		For Tanween
	In one word	In two words

Rules of Meem sakinah (أحكامُ الميمِ السَّاكِنةِ)

Its definition Meem is free from any harakah(no Fathah or dammah or kasrah) and it is sakinah when continuing recitation or stopping.
It is original or extra.
It also comesin the Middle of the word or at the end.

Explanation of the definition The intended meem here is devoid of harakah

- Either with no Sukoon sign like: ﴿وَلَكُم مَّا كَسَبْتُمْ﴾
- Or with Sukoon sign like: ﴿أَنْعَمْتَ﴾، ﴿عَلَيْكُمْ أَنفُسَكُمْ﴾

Rules of Meem sakinah

1. Idgham Shafawi (الإدغامُ الشَّفَوي) : (م)
2. Ikhfaa Shafawi (الإخفاءُ الشَّفَوي): (ب)
3. Ithhar Shafawi (الإظهارُ الشَّفَوي): (the rest of the letters).

1- Idgham Shafawi (oral merging)

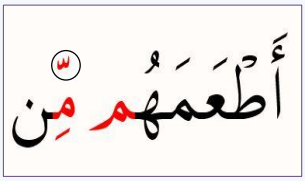

If meem sakinah is followed by only letter meem, It is merged into voweled meem, prolonging the timing of ghunnah (most complete ghunnah)

- ﴿ٱلَّذِىٓ أَطْعَمَهُم مِّن جُوعٍ وَءَامَنَهُم مِّنْ خَوْفٍۢ﴾ [قريش: 4].
- ﴿فِى قُلُوبِهِم مَّرَضٌ﴾ [البقرة: 10].
- ﴿جَآءَكُم مِّنَ﴾ [المائدة: 15].

- It is called shafawi: because meem is emitted from the two lips and is distinguished from merging noon into its letters.
- It is called Idgham mutamathilain saghir with ghunnah (Small merging of two identical letters with ghunnah):Because two meem have the same articulation point and Characteristic besides, the first meem is sakinah and the second is mutaharikah.

Sign of Idgham shafawi in the Qur'an

The first meem is with no Sukoon, but the second with shaddah like

2- Ikhfaa Shafawi (oral hiding)

If meem sakinah is followed by only letter baa, we pronounce hidden meem with ghunnah, It must happen between two words.

- The method of pronunciation: To make the two lips touch each other gently without leaving a gap or making lips over pressed against each other, keeping ghunnah as the reciter does with Iqlaab (converting).

Examples

- ﴿أَم بِظَٰهِرٍ﴾، ﴿وَمَن يَعۡتَصِم بِٱللَّهِ﴾
- ﴿إِنَّ رَبَّهُم بِهِمۡ يَوۡمَئِذٖ لَّخَبِيرٞ﴾

- It is called Shafawi because meem and baa are articulated from the two lips.

Sign of Ikhfaa shafawi in the Qur'an

There is neither sukoon sign above meem nor shaddah above the next letter like:

3- Ithhar Shafawi (oral clarity)

If meem sakinah is followed by any of alphaphetical letters except meem or baa, It is pronounced clearly.

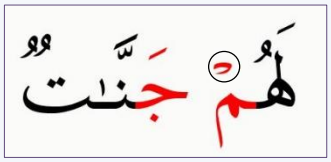

Examples

- ﴿أَنۡعَمۡتَ﴾، ﴿وَأَمۡدَدۡنَٰهُم﴾، ﴿فَيَمۡكُثُ﴾
- ﴿لَهُمۡ جَنَّٰتٞ﴾، ﴿هُمۡ خَيۡرٞ﴾، ﴿وَّهُمۡ فَرِحُونَ﴾

- It is called shafawi because meem is emitted from two lips

Sign of Ithhar shafawi in the Qur'an

Sukoon sign is above meem like

- Notification: The reciter should be cautious not to hide meem sakinah If it is followed by waaw or faa like

﴿هُمۡ فِيهَا خَٰلِدُونَ﴾، ﴿وَّهُمۡ فَرِحُونَ﴾، ﴿هُمۡ وَأَزۡوَٰجُهُمۡ فِي ظِلَٰلٍ﴾.

﴿أَيۡدِيهِمۡ وَمَا خَلۡفَهُمۡ ۖ وَلَا يُحِيطُونَ بِشَيۡءٖ مِّنۡ عِلۡمِهِۦٓ إِلَّا بِمَا شَآءَ﴾

because the reciter rushes to hide meem in these two cases because it is easy and the articulation point of Meem is close to faa and similar to waaw (from two lips).

Noon and Meem Mushaddad (النُّونُ والميمُ المُشدَّدَتينِ)

What must be known

- Ghunnah (الغُنَّةُ): A sound is emitted from the nasal cavity accompanying noon and meem in all cases.
- When the reciter pronounces noon or meem mushaddad, he must lengthen the timing of ghunnah (most complete ghunnah) in continuing recitation or stopping.

Examples

﴿مِنَ ٱلۡجِنَّةِ وَٱلنَّاسِ﴾، ﴿وَلَٰكِنَّ ٱللَّهَ سَلَّمَ﴾، ﴿وَمَن نُّعَمِّرۡهُ﴾

﴿حَمَّالَةَ ٱلۡحَطَبِ﴾، ﴿ثُمَّ كَلَّا سَيَعۡلَمُونَ﴾، ﴿مِن مَّالٍ وَبَنِينَ﴾

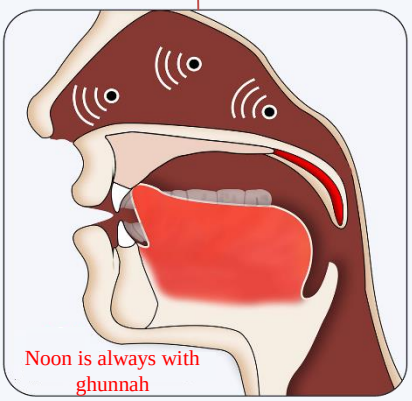

﴿وَإِذِ ٱبۡتَلَىٰٓ إِبۡرَٰهِـۧمَ رَبُّهُۥ بِكَلِمَٰتٖ فَأَتَمَّهُنَّۖ﴾

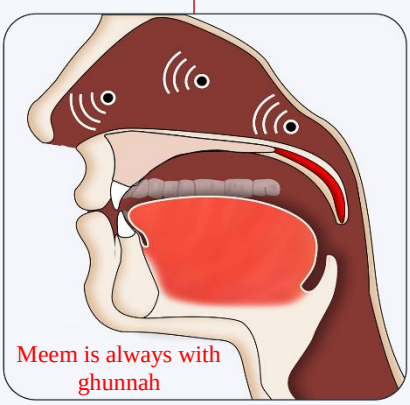

﴿إِنَّ ٱللَّهَ عَلَىٰ كُلِّ شَيۡءٖ قَدِيرٌ﴾

Note

If we want to start with ﴿نُّعَمِّرۡهُ﴾ or ﴿مَّالٍ﴾ In the previous examples, we omit shaddah and Start with meem and noon with no excessive ghunnah, shaddah also comes from Idgham and when we start with these letters, there is no Idgham.

Pictograms

Timings of ghunnah (أزمِنةُ الغُنَنِ)

1. most complete ghunnah: With noon and meem mushaddad, With merged noon and meem in the case of Idgham with ghunnah or Idgham shafawi

Like : ﴿وَلَـٰكِنَّ ٱللَّهَ سَلَّمَ﴾، ﴿فِى ٱلْيَمِّ وَلَا تَخَافِى﴾، ﴿مَلِكِ ٱلنَّاسِ﴾

﴿إِن نَّفَعَتِ﴾، ﴿وَمَن يَعْمَلْ﴾، ﴿مَّا لَهُم مِّنَ ٱللَّهِ﴾.

2. complete ghunnah: With hidden noon and meem in the case of Ikhfaa Haqiqy, ikhfaa shafawi and Iqlab like:

﴿ٱلْإِنسَـٰنُ﴾، ﴿وَمَن يَعْتَصِم بِٱللَّهِ﴾، ﴿مِنۢ بَعْدِ﴾

3. Incomplete ghunnah: with noon and meem sakinah when they are recited with Ithhar like

﴿أَنْعَمْتَ﴾، ﴿حَكِيمٌ عَلِيمٌ﴾، ﴿وَّهُمْ فَرِحُونَ﴾

4. most Incomplete ghunnah: with noon and meem with vowels like

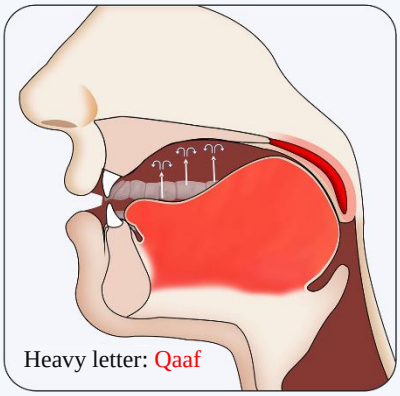

﴿بِئْسَمَا يَأْمُرُكُم بِهِۦٓ إِيمَـٰنُكُمْ إِن كُنتُم مُّؤْمِنِينَ﴾.

Heaviness and lightness (التَّفْخِيمُ والتَّرقِيقُ)

This research is strongly linked to the articulation points of letters and their characteristics. Its issue is dividing Arabic letters into heavy and light and, then emitting letter with the deserved characteristic according to its heaviness or ligtness.

Heaviness

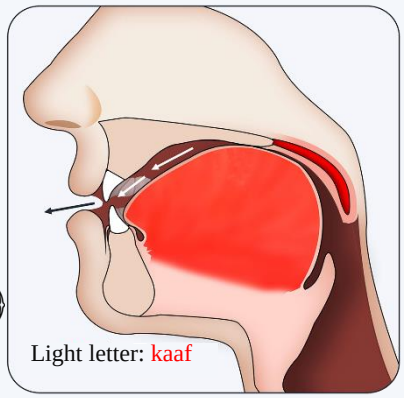

- In lingustics: fatness
- In applied definition: fatness that enters the body of the letter so, the mouth is filled with its echo.
- Examples: ﴿ٱلْغَيْبِ﴾،﴿خَالِصَةً﴾،﴿بَقْلِهَا﴾

Heavy letter: Qaaf

Lightness

- In lingustics: thinness.
- In applied definition: thinness that enters the body of the letter so, the mouth is not filled with its echo.
- Examples: ﴿أَكْثَرُهُمْ﴾،﴿أَتْرَابًا﴾، ﴿أَشْتَاتًا﴾

Light letter: kaaf

heavy and light letters can be divided into three sections :

- Letters that are always heavy: (خُصَّ ضَغْطٍ قِظْ)
- Letters that are sometimes heavy and sometimes light: (Alif _laam of the exalted name (الله) or (اللهم) _Raa)
- Letters that are always light: The rest of the alphaphetical letters.

Letters that are always heavy

حروفٌ مُفخَّمَةٌ دائمًا

Scholars of Tajweed agree that letters that are always heavy are letters of ist'laa (letters of elevation) (خُصَّ ضَغْطٍ قِظْ)
With no exclusion whether they are voweled or non_voweled and whether they are adjacent to independent letter or other, These letters vary in the degree of tafkheem (heaviness), Heaviness of the letter is determined by its elevation so, the more the letter is elevated, the more it is heavy.

- Ordering of elevated letters according to strength of heaviness:

The the strongest letter is ط And then خ ، غ ، ق ، ظ ، ص ، ض

Ranks of heaviness for elevated letters:

The first school of thought: They made them three ranks and Ibn At'haan Al_Andalusy chose it:

- Letter is with Fathah.
- Letter is with dammah.
- Letter is with kasrah.

Non_voweled letter has no separated rank, but it follows the rank of the Vowel on the preceding letter.

The second school of thought: They made them 5 ranks and Ibn Al_Gazari chose it.

1 - The first rank is letter with fathah followed by Alif Madd.
2 – The second rank is letter with Fathah and not followed by Alif Madd.
3 – The Third rank is letter with dammah.
4 – The fourth rank is letter with Sukoon.
5 - The fifth rank is letter with kasrah.

The second school of thought					
letters	1	2	3	4	5
T'aa	طَالُوتَ	طَعَامِ	بُطُونِهِمْ	شَطْرَ	شَيَـٰطِينِهِمْ

Khaa	خَالِصَةً	خَلِيفَةً	خُلَّةٌ	تَخْتَصُّ	أَخِيهِ

Letters that are always light

حروفٌ مرقَّقةٌ دائمًا

They are the letters of istifaal (lowering) except Alif Madd, laam of the exalted name and raa that are sometimes light and sometimes heavy.

Cases of heavy raa

1. Raa is with Fathah like: ﴿ٱلۡقُرَىٰ﴾، ﴿رَمَضَانَ﴾

2. Raa is with sukoon and preceded by letter with Fathah like: ﴿نَرۡفَعُ﴾، ﴿مَرۡيَمَ﴾

3. Raa is with conditional Sukoon (due to stopping on it) and preceded by letter with Sukoon (not Yaa) and the original Sukoon is preceded by Fathah like:

﴿وَٱلۡفَجۡرِ﴾، ﴿وَٱلۡوَتۡرِ﴾

4. Raa is with dammah like: ﴿تَعۡبُرُونَ﴾، ﴿رُزِقُوا﴾

5. Raa is with Sukoon and preceded by letter with dammah like: ﴿ٱلۡقُرۡءَانُ﴾

6. Raa is with conditional Sukoon and preceded by letter with Sukoon and the original sukoon is preceded by letter with dammah like: ﴿خُضۡرٍ﴾، ﴿ٱلۡغَفُورُ﴾

7. Raa is with Sukoon and preceded by letter with kasrah and followed by heavy letter not with kasrah in the same word, They are five words in the Qur'an:

﴿قِرۡطَاسٍ﴾، ﴿وَإِرۡصَادًا﴾، ﴿مِرۡصَادًا﴾، ﴿لَبِٱلۡمِرۡصَادِ﴾، ﴿فِرۡقَةٍ﴾

8. Raa is with sukoon and preceded by conditional kasrah whether it is pronounced or implied like:

﴿ٱرۡجِعُوٓاْ﴾، ﴿ٱرۡتَبۡتُمۡ﴾، ﴿أَمِ ٱرۡتَابُوٓاْ﴾، ﴿رَّبِّ ٱرۡحَمۡهُمَا﴾.

Briefly, When hamzatul wasl (Linking Hamzah) comes before raa sakinah, raa is heavy.

Cases of light raa

1. If raa is with kasrah like: ﴿رِيحٌ﴾، ﴿يَعۡرِفُونَهَا﴾

2. Raa is with original Sukoon and preceded by original kasrah and is not followed by heavy letter like: ﴿فِرۡعَوۡنَ﴾، ﴿يَغۡفِرۡ﴾

3. Raa is with conditional sukoon (because of stopping) and preceded by Sukoon and the original Sukoon is preceded by kasrah like: ﴿حِجۡرٍ﴾، ﴿ٱلسِّحۡرَ﴾

4. Raa is with Sukoon and preceded by Yaa sakinah (Yaa Madd or Yaa leen) like:

﴿خَيۡرٌ﴾، ﴿بَصِيرٌ﴾

Heaviness and lightness are allowed

﴿فِرۡقٍ﴾ in continuing recitation:

If raa is with sukoon and preceded by letter with kasrah and is followed by elevated letter with kasrah Allah says: ﴿فَكَانَ كُلُّ فِرۡقٖ كَٱلطَّوۡدِ ٱلۡعَظِيمِ﴾ [الشعراء: 63].

- It was mentioned in 1 position in the Qur'an .

- Note 1: When we stop on Qaaf with sukoon, raa must be heavy because the reason for lightness was removed, It(lightness) was conditional on pronouncing the next elevated letter (qaaf) with kasrah and it became with sukoon.
- Note 2: If we stop on qaaf with Rawm, raa can be heavy or light (Both two rules are possible).

tajwed2233

﴿ٱلۡقِطۡرِ﴾ ، ﴿مِصۡرَ﴾ When stopping:

Raa with sukoon is preceded by elevated letter with Sukoon and the elevated letter is preceded by kasrah Allah says:

﴿وَقَالَ ٱدۡخُلُواْ مِصۡرَ إِن شَآءَ ٱللَّهُ ءَامِنِينَ﴾ [يوسف: 99].

- Was mentioned 4 times in the Qur'an. [يونس:78 ، يوسف:21و99 ، الزخرف:51]

﴿وَأَسَلۡنَا لَهُۥ عَيۡنَ ٱلۡقِطۡرِۖ وَمِنَ ٱلۡجِنِّ﴾ [سبأ: 12].

- Was mentioned one time in the Qur'an.

- Note 1: Raa is heavy if we continued recitation because there is Fathah above it in the word: ﴿مِصۡرَ﴾

  Raa is light if we continued recitation because there is kasrah below it in the word : ﴿ٱلۡقِطۡرِ﴾

- Note 2: Imam Ibn Al_Gazari chose heaviness when we stop on raa with sukoon in the word: ﴿مِصۡرَ﴾ because it is heavy when continuing recitation.

  He chose lightness when we stop on raa with sukoon in the word: ﴿ٱلۡقِطۡرِ﴾ because it is light when continuing recitation.

- Note 3: Some scholars make both heaviness and lightness of raa are permissible in the next three words when stopping, but the priority is to be light.
  In Allah's saying:

  - ﴿ فَكَيۡفَ كَانَ عَذَابِي وَنُذُرِ ﴾ [القمر: 16].
  - ﴿وَٱلَّيۡلِ إِذَا يَسۡرِ﴾ [الفجر: 4].
  - ﴿وَأَوۡحَيۡنَآ إِلَىٰ مُوسَىٰٓ أَنۡ أَسۡرِ بِعِبَادِيٓ إِنَّكُم مُّتَّبَعُونَ ﴾ [الشعراء: 77].

When raa is with sukoon due to stopping and followed by omitted yaa.
(There are 2 opinions):
Whoever makes raa light, he takes into account its origin where yaa is omitted and also when continuing recitation.
Whoever makes raa heavy, he does not regard its origin nor continuaton of recitation so, it is heavy according to the rule.

4 - Ghunnah (الغُنَّة)

Ghunnah follows the next letter in accordance with heaviness or lightness.

It is heavy if the next letter is heavy They are : (ط، ض، ص، ظ، ق) Like:

T'aa	يَنطِقُونَ	مَن طَغَىٰ	صَعِيدًا طَيِّبًا
D'add	مَّنضُودٍ	مِن ضَرِيعٍ	مُّسۡفِرَةٌ ﴿٣٨﴾ ضَاحِكَةٌ
S'aad	فَٱنصَبۡ	عَن صَلَاتِهِمۡ	بِرِيحٍ صَرۡصَرٍ
Th'aa	يَنظُرُونَ	مَن ظَلَمَ	ظِلًّا ظَلِيلًا
Qaaf	أَنقَضَ	مِن قَبۡلُ	شَيۡءٍ قَدِيرٌ

It is light if the next letter is light Like:

Thaal	مُّنذِرٌ	مِّن ذَكَرٍ	مِّن ذَكَرٍ
Thaa	مَّنثُورًا	فَمَن ثَقُلَتۡ	فَمَن ثَقُلَتۡ
Kaaf	عَنكَ	إِن كَانَ	إِن كَانَ
Jeem	وَأَنجَيۡنَا	مِّن جُوعٍ	مِّن جُوعٍ
Sheen	أَنشَرَهُۥ	فَمَن شَآءَ	فَمَن شَآءَ

Madd and Qasr (Lengthening and Shortening)

المدُّ وَالقَصرُ

Definition of Madd

In linguistics: Increase and prolongation, Allah says:

﴿وَيُمْدِدْكُم بِأَمْوَالٍ وَبَنِينَ﴾ [نوح: 11].

In applied definition: Stretching the sound with one of the lengthening and soft letters, exceeding the amount of natural madd (more thantwo counts) because of hamzah or sukoon.

Letters of Madd

Alif sakinah, waaw sakinah and Yaa sakinah are preceded by similar letters to them

Alif sakinah is preceded by letter with fathah like:

﴿ قَال﴾، ﴿ وَحَالَ﴾، ﴿أَندَادًا﴾

Waaw sakinah is preceded by letter with dammah like:

﴿ يَقُول﴾، ﴿تحُولُ﴾، ﴿تَتَّقُونَ﴾.

Yaa sakinah is preceded by letter with kasrah like:

﴿ قِيل﴾، ﴿ وَحِيلَ﴾، ﴿صَـٰدِقِين﴾.

- Three madd letters with their conditions are collected in the following words: ﴿نُوحِيهَآ﴾﴿ أُوتِينَا ﴾﴿أُوذِينَا﴾

- They are called letters of madd because they can be stretched and prolonged.

Two letters of leen

Waaw sakinah and Yaa sakinah are preceded by letter with fathah like: ﴿ قَوْلَ﴾، ﴿ يَوْمَ﴾، ﴿قُرَيْشٍ﴾

- They are called letters of leen because they are emitted lengthily and softly with no effort from the tongue.

Madd and Qasr (Lengthening and Shortening)

المدُّ وَالقَصرُ

Definition of Qasr

In linguistics: imprisonment and withholding.

In applied definition:Pronouncing the letter of madd with the amount of natural madd (only two counts).

- Note: The meaning of Qasr To avoid prolonging the letter of madd more than two counts not avoid Madd as a whole. Madd exceeds this amount(more than 2 counts) .

Types of madd in the Qur'an

أنواعُ المَدِّ في القُرآنِ الكريمِ

1. Original Madd (natural):

It is a madd where the letter is not realized except with it, It doesn't rely on a cause of hamzah or sukoon.

- It is called original because it is primary and unchangeable at all.
- It is called natural because human nature requires not to shorten nor prolong it more than two counts.
- Amount of madd: Not to prolong nor shorten it more than two counts in all different shapes by all reciters.
- The duration of lengthening is measured by a count:
  - The count: It is the period of time needed to pronounce a voweled letter like: بِ بُ بَ
  - Its amount is 2 counts: It is a period of time needed to pronounce two voweled letters respectively like: بَ بَ or بُ بُ or بِ بِ
  - Durations of Lengthenings are proportional to the speed of recitation by the way of realization, moderation or reciting quickly.

2. Secondary lengthening: It is prolonging the sound with one of the letters of madd due to hamzah or sukoon after the letter of madd.
   - It is called secondary because it is branched out from the original lengthening and depends on a cause.

Chart clarifies the types of madd in the Qur'an

- Original (natural) — Is prolonged for 2 counts
  - What follows it:

Badal (Exchange)	a
Ewad(Substitute)	b
Silah Sughra (Lesser connecting)	c

- Secondary — Is Prolonged more than 2 counts
  - Caused by hamzah

What follows natural lengthening

a- Madd Al_Badal (Exchange Lengthening)

Its definition : Hamzah precedes lengthening letter in a word.

Examples: ﴿ءَامَنُوا۟﴾، ﴿أُوتُوا۟﴾، ﴿إِيمَـٰنًا﴾، ﴿ءَادَمَ﴾

Note:

1 - It is called badal because its origin is two hamazahs: The first is voweled and the second is non_voweled so, the last hamzah is converted into a lengthening letter similar to the vowel of the preceding letter like:

﴿ءَامَنُوا۟﴾ Its origin (ءَأْمنوا) ، ﴿أُوتُوا۟﴾ Its origin (أُؤْتوا) ، ﴿إِيمَـٰنًا﴾ Its origin (إِئْمَانًا)

2 - In some words, A Lengthening letter is not converted from hamzah, They are also called madd al_badal or as the classifiers called them similar to badal like:

﴿ٱلْقُرْءَانِ﴾، ﴿وَجَآءُو﴾، ﴿ٱلْخَـٰطِـِٔينَ﴾، ﴿مَسْـُٔولًا﴾.

3 - Some classifiers make Exchange Lengthening follow secondary section because it is preceded by hamzah and lengthened more than two counts by some reciters.

b- Madd Al_Ewad (Substitute Lengthening)

Its definition: Substituting an Alif for tanween with fathah when stopping on it.

Examples: ﴿عَلِيمًا﴾، ﴿حَكِيمًا﴾، ﴿سَوَآءً﴾، ﴿إِنشَآءً﴾، ﴿شَيْـًٔا﴾

It is called Ewad because we Substitute an Alif for tanween.

- Notice: Tanween with fathah is not Substituted by Alif when stopping on feminine haa, but it is pronounced with sukoon.

﴿وَشَجَرَةً﴾ when stopping ﴿وَشَجَرَةْ﴾

﴿جَنَّةً﴾ when stopping ﴿جَنَّةْ﴾

c- Madd A'Silah A'sughra (Lesser Connecting Lengthening)

It will be clarified later.

Secondary Lengthening Caused By Hamzah

a- Madd wajib Mu'tasil (Required joined lengthening)

- Its definition: A letter of madd is followed by hamzah in the same word.
- Examples: ﴿وَجَآءَكُمُ ٱلنَّذِيرُ﴾، ﴿سُوٓءَ ٱلۡعَذَابِ﴾، ﴿هَنِيٓـًٔا بِمَا﴾ ﴿هَآؤُمُ﴾، ﴿ٱلسَّمَآءِ﴾، ﴿هَـٰٓؤُلَآءِ﴾.
- Its is called Mu'tasil (Joined) because a letter of madd is followed by hamzah directly in the same word.
- The duration of lengthening: 4 or 5 counts.

b- Madd Ja'ez Munfasil (Separate allowed lengthening)

- Its definition: A letter of madd comes at the end of the first word followed by hamzah at the beginning of the next word.
- Examples: ﴿إِنَّآ أَعۡطَيۡنَـٰكَ﴾، ﴿وَتُوبُوٓاْ إِلَى ٱللَّهِ﴾، ﴿فِيٓ أَنفُسِكُمۡ﴾ ﴿يَـٰٓأَيُّهَا﴾، ﴿هَـٰٓأَنتُمۡ هَـٰٓؤُلَآءِ﴾.
- Its is called Munfasil (separate) because a letter of madd comes in a word and hamzah comes in another word so, they are separated from each other.
- The duration of lengthening: 4 or 5 counts.

- Notice -1- There are 2 types of separation:
  - Haqiqy (Real): A letter of madd is constant in writing and pronouncing like: ﴿بِمَآ أُنزِلَ﴾، ﴿قُوٓاْ أَنفُسَكُمۡ﴾، ﴿فِيٓ أَنفُسِكُمۡ﴾
  - Hukmi (judgmental): A letter of madd is omitted in writing
  - and constant in pronouncing like: ﴿يَـٰٓأَيُّهَا ٱلَّذِينَ﴾، ﴿هَـٰٓأَنتُمۡ هَـٰٓؤُلَآءِ﴾
- Notice -2- It is prolonged for 2 counts as for the way of Taybat Annshr.

c- Madd Asilah Al _Kubra (Greater Connecting Lengthening)

It will be clarified on next page.

Madd A'Silah (Connecting Lengthening)

Connecting lengthening (مدُّ الصِّلة) : To connect pronoun haa (ـه) to waaw if haa has dammah and connect haa to yaa if haa has kasrah provided that haa occurs between two voweled letters.

Pronoun haa (Allusion) ((الكِناية) هاءُ الضَّمير) :
It is an extra haa and not from the origin of the word, indicating to a masculin third person singular.

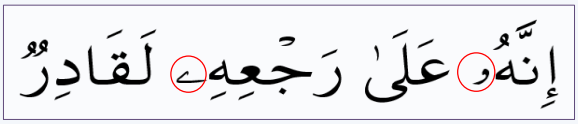

Madd A'Silah Asughra: Lesser Connecting Lengthening : There is no hamzah after pronoun haa.

Madd A'Silah Asughra

Lesser Connecting Lengthening:

There is no hamzah after pronoun haa.

- The duration of lengthening: It is prolonged for 2 counts and it follows natural lengthening.
- Examples: ﴿ بَلَىٰٓ إِنَّ رَبَّهُۥ كَانَ بِهِۦ بَصِيرًا ﴾
- Its sign in the Qur'an: Tiny waaw or tiny yaa after pronoun haa.

Madd A'Silah Al_Kubra

Greater Connecting Lengthening:

There is hamzah after pronoun haa.

- The duration of lengthening: It is prolonged for 4 or 5 counts and it follows Madd Munfasil (separated lengthening)
- Examples: ﴿يَحْسَبُ أَنَّ مَالَهُۥٓ أَخْلَدَهُۥ﴾ ﴿وَمَا يُكَذِّبُ بِهِۦٓ إِلَّا كُلُّ﴾
- Its sign in the Qur'an: tiny waaw with wave sign above it or tiny yaa tiny waaw or tiny yaa with wave sign above after pronoun haa

- Remark -1-: Connecting Lengthening occurs only when continuing recitation,but when stopping, we stop with sukoon.

- Remark -2-: We exclude 2 words from this rule according to the narration of Hafs:

  * There is a madd although not all the conditions of Connecting lengthening are met

    ﴿وَيَخۡلُدۡ فِيهِۦ مُهَانًا﴾ [الفرقان: 69]

  * There is no madd although all the conditions of Connecting lengthening are met

    ﴿يَرۡضَهُ لَكُمۡ﴾. [الزمر: 7].

- Remark -3-: Haa that enters the demonstrative pronoun is belonged to Connecting lengthening (هذه) Like:

  ﴿هَٰذِهِۦ نَاقَةُ ٱللَّهِ﴾،﴿هَٰذِهِۦ بِضَٰعَتُنَا﴾، ﴿إِنَّ هَٰذِهِۦٓ أُمَّتُكُمۡ﴾

Secondary Lengthening Caused By Sukoon

a- Madd Al _Lazim (Compulsory Lengthening):

Its definition: A lengthening letter is followed by a letter with an original sukoon when continuing recitation or stopping.

Examples: ﴿صٓ﴾، ﴿طسٓمٓ﴾، ﴿ءَآلۡـَٰٔنَ﴾، ﴿ٱلضَّآلِّينَ﴾

The duration of lengthening: It is prolonged for 6 counts for all its divisions and for all reciters.

Compulsory lengthening is divided into 2 types

Compulsory lengthening in a word: A lengthening letter is followed by a letter with an original sukoon in a word.

- **Compulsory heavy lengthening in a word:** A lengthening letter is followed by a letter with sukoon merged into the next (mushaddad letter) in the same word like:
  ﴿ٱلضَّآلِّينَ﴾، ﴿أَتُحَٰٓجُّوٓنِّي﴾، ﴿ءَآمَنتُم﴾، ﴿ءَآللَّهُ﴾، ﴿ءَآلذَّكَرَيۡنِ﴾
  Yaa was not mentioned as a Compulsory lengthening in the Qur'an.

- **Compulsory light lengthening in a word:** A lengthening letter is followed by a letter with sukoon and not merged into the next in the same word like: ﴿ءَآلۡـَٰٔنَ﴾It was mentioned twice in surat Yunus in the verses N. (51_95) and there is no third position in the Qur'an.

Compulsory Lengthening in a Letter: A lengthening letter is followed by a letter with an original sukoon.
It is restricted to the separate letters at the beginning of the chapters (surahs) Its letters are 7 collected in: (سَنَقُصُّ لَكُم) .

- **Compulsory heavy lengthening in a letter**: One of the separate letters at the beginning of some chapters (Surahs) is consisted of 3 letters, the middle is a lengthening letter and the third is merged into the next letter.
  Like (لام) In (الم) It is pronounced (ألف لام مـّيم)
  Like (سين) In (طسم) It is pronounced (طا سيـن مـّيم)

- **Compulsory light lengthening in a letter:** One of the separate letters at the beginning of some chapters (Surahs) is consisted of 3 letters, the middle is a lengthening letter and the third is a sakin letter.
  Like: ﴿صٓ﴾It is pronounced (صَاد) , ﴿نٓ﴾It is pronounced (نُون)

Rules of lengthening at the beginning of chapters (Surahs)

أحكامُ المَدِّ في فَواتِحِ السُّوَرِ

29 surahs in the Qur'an began with separate letters, They are 14 letters collected in their saying :

صَـحَّ طَـريـقُـكَ مَـع

Your path is right as long as you follow Sunnah

These separate letters appear in 14 forms :

﴿الٓمٓ﴾، ﴿الٓمٓصٓ﴾، ﴿الٓر﴾، ﴿الٓمٓر﴾، ﴿كٓهيعٓصٓ﴾، ﴿طه﴾، ﴿طسٓمٓ﴾

﴿طسٓ﴾، ﴿يسٓ﴾، ﴿صٓ﴾، ﴿حٰمٓ﴾، ﴿حٰمٓ ۝١ عٓسٓقٓ﴾، ﴿قٓ﴾، ﴿نٓ﴾

These separate letters are divided into four groups according to madd:

1. A group is not prolonged at all (Alif): due to the absence of lengthening where it is read (أَلِف) Like ﴿الٓمٓ﴾ It is read (أَلِف لام ميـــــم)

2. A group is prolonged naturally (for 2 counts): Each letter is read as a two_ letter word , the second is a lengthening letter, They are 5 letters collected in a term (حَـيٌّ طَـهُرَ) It is read (حَا ، يَا ، طَا ، هَا ، رَا)

3. A group is prolonged compulsorily (for 6 counts): Each letter is read as a three_ letter word , the middle is a lengthening letter followed by a letter with an original sukoon. They are 7 letters collected in his saying: (سَنَقُصُّ لَكُم)

   Like this : ﴿سٓ﴾ ﴿نٓ﴾ ﴿قٓ﴾ ﴿صٓ﴾ ﴿لٓ﴾ ﴿كٓ﴾ ﴿مٓ﴾
   (سِيـــــن ، نُـــون ، قَـــــاف ، صَـــــاد ، لَـــــام
   كَـــــاف ، مِيـــــــــم)

3. A group is allowed to be prolonged(for 4 or 6 counts):
   Each letter is read as a three _letter word, the middle is a leen letter (soft letter),
   It means Ain that occurs at the beginning of

   Surat Mariam ﴿كٓهيعٓصٓ﴾ It is read (كَاف هَا يَا عَيـن صَاد)

   And surat A'Shura ﴿حٰمٓ ۝١ عٓسٓقٓ﴾ It is read (حَا مِيم عَيـن سِين قَاف)

- This group follows soft lengthening because they are close to each other.

b- Madd Al_Arid Li'sukoon (Lengthening because of a conditional sukoon):

Its definition: A lengthening letter is followed by a conditional sukoon due to stopping.

Examples: ﴿بِٱلۡعِبَادِ﴾، ﴿ٱلۡفَآئِزُونَ﴾، ﴿ٱلۡعَٰلَمِينَ﴾

The duration of lengthening: It is prolonged for (2 or 4 or 6) counts when stopping, but when we continue recitation, it will be a natural lengthening (prolonged for 2 counts).

- It is preferrable to make the duration of prolonging Madd Arid li'sukoon(lengthening due to conditional sukoon) equal to each other if it is repeated in the same verse or chapter, If the reciter lengthened it for example for 4 counts, he must continue with 4 counts until finishing recitation and also with the remaining durations.
- It is preferrable to shorten it for 2 counts when reciting with hadr (quickly), 4 counts when reciting with tadwir (moderation) and 6 counts when reciting with tahqiq (realization), so the recitation will be more suitable and beautiful.

c- Madd Al_Leen (Soft lengthening)

Its definition: A soft letter is followed by a conditional sukoon due to stopping.

Examples: ﴿خَوۡف﴾، ﴿قُرَيۡشٍ﴾﴿ٱلۡبَيۡتِ﴾

The duration of lengthening: It is prolonged for(2 or 4 or 6) counts. This madd is applied when stopping on the letter after the soft letter, but when we continue recitation, it won't be prolonged.

Like : ﴿هَٰذَا ٱلۡبَيۡتِ ۝٣ ٱلَّذِيٓ﴾ (in continuation)

- It is prefereable to make the duration of prolonging madd Leen (Soft Leen) equal to each other as we mentioned before with madd Arid Li' Sukoon.
- It is preferrable to shorten it for 2 counts when reciting with hadr (quickly), 4 counts when reciting with tadwir (moderation) and 6 counts when reciting with tahqiq (realization), so the recitation will be more suitable and beautiful.

- Note: Secondary lengthening has 3 rules:

1 - The l Compulsory: All reciters agreed on its prolongation and its duration, It's Compulsory lengthening.

2 -Required: All reciters agreed on its prolongation and disagreed on Its duration, It's joined lengthening.

3 -Allowed: The reciters disagreed on its prolongation or shortness and its duration, They are separate lengthening, greater Connecting lengthening, lengthening due to conditional sukoon and soft lengthening.

A chart clarifies types of madd, its rule and the duration ofLengthening

جدولٌ يوضِحُ أنواعِ المُدودِ وحُكمهِ ومقدارِ مَدِّه

	The type of madd	The duration of lengthening	Its rule
Secondary Lengthening	Al _Lazim (Compulsory)	(6) counts	Compulsory
	Al_Mutasil (Joined)	(4 or 5) counts	Required
	Al_Arid Li'sukoon (Conditional with sukoon)	(2 or 4 or 6) counts	Allowed
	Al_Leen (Soft)	(2 or 4 or 6) counts	Allowed
	Al_Munfasil (Separate)	(4 or 5)counts	Allowed

	A'Silah Asughra (Lesser Connecting)	(2) counts	Required

The sign of madd in the Qur'an

علامةُ المَدِّ في ضَبطِ المُصحفِ

This sign (~) is placed above the letter of madd, indicating to its prolongation more than natural (more than 2 counts)
This sign is placed above Compulsory lengthening, joined required, separate allowed and greater connecting.

The Strongest Madd and using the rule of the stronger of two causes

أقوى المُدُودِ والعملُ بقاعدةِ أقوى السَّببينِ

- If two causes are met in a lengthening letter, one of them is strong and the other is weak so, the stronger is used and the weaker is neglected.
- Secondary lengthening appear in 5 ranks according to strength and weakness. They will be ordered from the stronger to the weaker as follows. Sheikh As_Samannudi says:

أَقْوَى المُدُودِ: ① لَازِمٌ فَمَا ② اتَّصَلْ ③ فَعَارِضٌ فَذُو ④ انفِصَالٍ ⑤ فَبَدَلْ

وَسَبَبَا مَدٍّ إذا مَا وُجِدَا فَإِنَّ أَقْوَى السَّبَبَيْنِ انْفَرَدَا

The Strongest of lengthenings is (Lazim) Compulsory (1) and then, (Mu'tasil) Joined (2) , (Arid li'sukoon) conditional because of sukoon (3), (Munfasil)Separate (4) and then (Badal) Exchange (5)

Meeting lengthenings in the rule of the stronger of two causes

2	Mu'tasil	
3	Arid li'sukoon	
4	Munfasil	
5	Mu'tasil and Arid li'sukoon	
6	Mu'tasil and Arid li'sukoon	

Meeting lengthenings in the rule of the stronger of two causes

المُدودُ التي تَجتَمعُ في قاعدةِ أقوى السَّبَبَينِ

① Meeting Lazim with Badal like:

﴿ءَآمَنتُم﴾،﴿ءَآللَّهُ﴾،﴿ءَآلۡـَٰٔنَ﴾،﴿ءَآلذَّكَرَيۡنِ﴾ Lazim is used first.

② Meeting Mu'tasil with Badal like: ﴿ رِئَآءَ ٱلنَّاسِ ﴾ Mu'tasil is used first

③ Meeting Arid li'sukoon with Badal like:

﴿شَنَـَٔانُ﴾،﴿يُرَآءُونَ﴾،﴿ خَـٰسِـِٔينَ ﴾ Arid li'sukoon is used first.

④ Meeting Munfasil with Badal like: ﴿ وَجَآءُوٓ أَبَاهُمۡ ﴾ Munfasil is used first.

⑤ Meeting Mu'tasil, Badal and Arid li'sukoon like: ﴿ رِئَآءَ ﴾

Badal is neglected because it is weak, so the remaining lengthenings (Mu'tasil and Arid li'sukoon) subject to the same rules.

⑥ Meeting Mu'tasil with Arid li'sukoon like: ﴿ٱلسَّمَآءُ﴾

Idgham in the Holy Qur'an (الإدغامُ في القرآنِ الكريمِ)

- Definition: To insert non _voweled letter into a voweled letter where they become one stressed letter as the second one.
- Benefit: To pronounce letters easily, as pronouncing one single merged letter is lighter than pronouncing two separate ones, as pronouncing a single merged letter is lighter than pronouncing two separate ones.
- Causes: Meeting two identical letters, two close letters and two similar Letters.
- division:
  - Idgham kabir (big merging): inserting voweled letter into another voweled letter to become one stressed (mushaddad) letter as second.
    - Idgham kabir is not applied by Hafs on the authority of Asim except in certain positions.
    - It is called Idgham kabir due to the multiple steps involved replacing the first letter if not identical to the second, then making it non-voweled, and finally merging it with the second letter with shaddah.
  - Idgham saghir (small merging): Inserting non_voweled letter into voweled letter to become one mushaddad letter as the second.
    - Itis called idgham saghir due to fewer steps involved, compared to idgham kabir
    - Idgham saghir is divided into two section s in terms of characteristic:
      - Complete Idgham: Merging the articulation point and characteristic of the letter into the next. The merged letter is removed completely and has no traces when pronouncing.
        Like : ﴿فَمَا مَنَت طَّآئِفَةٌ﴾، ﴿قَد تَّبَيَّنَ﴾، ﴿مِّن مَّسَدٍ﴾.
        - Its sign: The first letter is free from Sukoon and the second is mushaddad.

Incomplete Idgham: Merging the articulation point of the letter not characteristic into the next. The merged letter is removed, but some of its characteristics are kept.

Incomplete Idgham does not occur except:

- Merging noon sakinah or tanween into Yaa or waaw like :

﴿وَمَن يَعْمَلْ﴾،﴿مِّن وَرَآئِهِمْ﴾،﴿سِرَاجًا وَهَّاجًا﴾،﴿وَوَالِدٍ وَمَا وَلَدَ﴾.

The characteristic of merged letter (ghunnah) is preserved

- Merging T'aa into taa like : ﴿بَسَطتَ﴾، ﴿أَحَطتُ﴾

Its sign: The first letter is free from Sukoon and the second letter is not mushaddad.

Research of relationships between two meeting letters

مَبحَثُ عِلاقاتُ الحُروفِ

Every two letters meet in pronouncing or writing, there is a relationship between them. So, they may be identical, similar, close or far apart. This meeting may be in one word or between two words. In the following, we will define every type of this meeting and clarify its rule:

1- Two identical letters (الحرفانِ المُتماثِلان)

These letters share the same articulation point and characteristics like:

﴿وَقَد دَّخَلُواْ﴾، ﴿فِيهِ هُدًى﴾، ﴿تَمۡسَسۡهُ﴾

The condition of Idgham (merging) two identical letters: The first of the two identical letters is sakin and is not a lengthening letter like :

- Merging baa into baa like: ﴿ٱضۡرِب بِّعَصَاكَ ٱلۡحَجَرَ﴾ [البقرة: 60]
- Merging taa into taa like : ﴿رَبِحَت تِّجَٰرَتُهُمۡ﴾ [البقرة: 16]
- Merging daal into daal like: ﴿وَقَد دَّخَلُواْ﴾ [المائدة: 61]
- Merging thaal into thaal like: ﴿إِذ ذَّهَبَ﴾ [الأنبياء: 87]
- Merging raa into raa like: ﴿وَٱذۡكُر رَّبَّكَ﴾ [الكهف: 24]
- Merging noon into noon like: ﴿مِّن نَّٰصِرِينَ﴾ [الروم: 29]
- Merging faa into faa like: ﴿فَلَا يُسۡرِف فِّي ٱلۡقَتۡلِ﴾ was mentioned once in the Qur'an.
- Merging laam into laam like : ﴿وَيَجۡعَل لَّكَ قُصُورَۢا﴾ [الفرقان: 10]
- Merging ain into ain like: ﴿تَسۡتَطِع عَّلَيۡهِ﴾ was mentioned once in the Qur'an.
- Merging meem into meem like: ﴿أَطۡعَمَهُم مِّن جُوعٖ﴾ Idgham shafawi (oral merging).
- Merging kaaf into kaaf like: ﴿يُدۡرِككُّمُ ٱلۡمَوۡتُ﴾ [النساء: 78]
- Merging haa into haa like: ﴿يُكۡرِههُّنَّ﴾ [النور: 33]
- Merging waaw into waaw like: ﴿أَو وَّزَنُوهُمۡ﴾ [المطففين: 3]
- Merging yaa into yaa like: ﴿بِأَييِّكُمُ﴾ [القلم: 6] was mentioned once.

If the first of the two identical letters is voweled or it is a lengthening letter, It will not be merged into the next letter (Merging is not applied) like:

﴿تَمۡسَسۡهُ﴾، ﴿يَعۡلَمُ مَا بَيۡنَ﴾، ﴿قَالُواْ وَهُمۡ﴾، ﴿فِي يُوسُفَ﴾، ﴿فِيهِ هُدًى﴾

2- Two similar letters (الحرفانِ المُتجانسان)

These letters share the same articulation point and differ in some characteristics like:

﴿فَٱصۡفَحۡ عَنۡهُمۡ﴾، ﴿ٱلنُّفُوسُ زُوِّجَتۡ﴾، ﴿أَتَدۡعُونَ﴾

Similarity is one of the reasons for Idgham (merging), but meeting two similar letters does not mean that they must be merged, The reciters do not merge every similar letters, but they merge certain letters, Imam Hafs made Idgham of two similar letters limited to 7 cases provided that the first of them is sakin like:

a- Articulation point of th'aa, thaal and thaa (ظ، ذ، ث).

① Merging thaal into th'aa in 2 Positions like:

- ﴿إِذ ظَّلَمُوٓاْ أَنفُسَهُمۡ﴾ [النساء: 64]
- ﴿إِذ ظَّلَمۡتُمۡ﴾ [الزخرف: 39]

② Merging thaa into thaal in 1 Position like:

- ﴿يَلۡهَث ذَّٰلِكَ﴾ [الأعراف: 176]

b- Articulation point of baa and meem (ب، م)

③ Merging baa into meem in 1 Position like:

- ﴿يَٰبُنَيَّ ٱرۡكَب مَّعَنَا﴾ [هود: 42]

b- Articulation point of T'aa, daal and taa (ط، د، ت).

④ Merging daal into taa like:

- ﴿قَد تَّبَيَّنَ﴾ [البقرة: 256]

⑤ Merging taa into daal in 2 Positions like:

- ﴿أَثۡقَلَت دَّعَوَا ٱللَّهَ﴾ [الأعراف: 189]
- ﴿أُجِيبَت دَّعۡوَتُكُمَا﴾ [يونس: 89]

⑥ Merging taa into t'aa like:

- ﴿فَٱمَنَت طَّآئِفَةٌ﴾ [الصَّف: 14].

⑦ Merging t'aa into taa in 4 words like:

﴿بَسَطتَ﴾، ﴿أَحَطتُ﴾، ﴿فَرَّطتُ﴾، ﴿فَرَّطتُمۡ﴾

- Note: Merging t'aa into taa is Incomplete Idgham because t'aa is stronger than taa and strong is not merged into weak. The characteristics of t'aa are preserved including Itbaq (adhesion), but qalqalah(disturbance) is removed.

3-Two close letters (الحرفانِ المُتقاربانِ)

These letters are close to each other in the articulation point and characteristics.

- They may be close to each other in the articulation point and characteristic like: ﴿مِن لَّدُنۡهُ﴾

- They may be close to each other in the articulation point and different in characteristic like: ﴿عَدَدَ سِنِينَ﴾

- They may be close to each other in the characteristic and different in articulation point like: ﴿لَّقَدۡ كَانَ لَكُمۡ﴾

Closeness is one of the reasons for Idgham, but meeting two close letters doesn't mean that they must be merged. The reciters do not merge every two close letters, but they merge certain letters. Imam Hafs made Idgham of two close letters as the following :

① Merging laam into raa like :

- ﴿ بَل رَّفَعَهُ ٱللَّهُ إِلَيۡهِۚ ﴾ [النساء: 158].
- ﴿بَل رَّبُّكُمۡ ﴾ [الأنبياء: 56].
- ﴿وَقُل رَّبِّ أَنزِلۡنِي مُنزَلٗا مُّبَارَكٗا ﴾ [المؤمنون: 29].

- They are similar letters, according to the school of thought of Al_Far'aa. It is a required Idgham of close letters, according to the school of thought of Sybawyh.
- There is an exclusion: ﴿ بَلّ رَانَ ﴾ Merging laam into raa is not applied due to sakt (slight pause without taking breath) that prevents Idgham (merging).

② Merging qaaf into kaaf :Almighty's word : ﴿أَلَمۡ نَخۡلُقكُّم مِّن مَّآءٖ مَّهِينٖ﴾ [المرسلات: 20]

- The reciters differed about remaining the characteristic of qaaf or not, It is permissible to apply complete Idgham or Incomplete Idgham and the first (complete Idgham) is recited by Hafs.

③ Merging laam shamsyyah (solar laam) In(13) letters.
It will be clarified in the subject of laam At'reef (Laam of the definite article).

④ Merging noon sakinah and tanween in 5 letters of the word (يَرْمُلُو).
It was mentioned in the subject of noon sakinah and tanween.

4-Two far apart letters (الحرفانِ المُتباعدان)

These letters are far apart in the articulation point and characteristics like:

﴿تَحۡمِلُون﴾، ﴿تَشۡكُرُونَ﴾

Its rule: Ithhar (clarity) in all recitations.

Notes 1: Some classifiers divided the two identical, similar and close letters into:

Saghir (Small)	Kabir (Big)	Mutlaq (Absolute)
The first letter is sakin and the second is voweled.	The two letters are voweled ﴿فِيهِ هُدًى﴾ ﴿ٱلنُّفُوسُ زُوِّجَتۡ﴾ ﴿رِزۡقُكُم﴾	The first letter is voweled and the second is sakin ﴿تَمۡسَسۡه﴾ ﴿أَتَدۡعُون﴾ ﴿وَلَن تَرۡضَىٰ﴾
Its rule: It was clarified above	Its rule: Ithhar (clarity) by Hafs.	Its rule: Ithhar must be applied by all reciters.

Notes 2: A number of scholars said that Hafs recited with Idgham kabir in few Positions like :

- ﴿تَأۡمَنَّا﴾ [يوسف: 11] Its origin (تأمَنُنَا)
- ﴿مَكَّنِّي﴾ [الكهف: 95] Its origin (مكنَنِي)
- ﴿تَأۡمُرُوٓنِّيٓ﴾ [الزمر: 64] Its origin (تأمُرُونَنِي)
- ﴿أَتُحَٓجُّوٓنِّي﴾ [الأنعام: 80] Its origin (أتحآجُّونَنِي)
- ﴿نِعِمَّا﴾ [النساء: 58] Its origin (نعمَ مَا)
- ﴿يَهِدِّيٓ﴾ [يونس: 35] Its origin (يهْتَدي)

It is called idgham kabir (big merging) when we look at the origin of the word, but the current shape of the word cancels this call.

Rules of the non-voweled Laam

أحكامُ اللَّامِ السَّاكِنةِ

The Non_Voweled Laams in the Noble Qur'an are of five types:

1- Laam Of The Definite Article

It is an extra laam sakinah added to the basic makeup of the word, preceded by linking hamzah (hamzatul_wasl) with Fathah when starting and followed by noun.

Laam Qamaryyiah (lunar laam):

It is followed by any of the letters of (ابْغِ حَجَّكَ وَخَفْ عَقِيمَهُ)

- Its rule : Ithhar (clarity).
- Its sign in the Qur'an : Sukoon sign above laam

ٱلْوَدُودُ	ٱلْكَهْفِ	ٱلْجَنَّةِ	ٱلْحَجِّ	ٱلْغَنِيُّ	ٱلْبَارِئُ	ٱلْأَمْلُ
ٱلْهُدَىٰ	ٱلْمُلْكُ	ٱلْيَوْمِ	ٱلْقَمَرُ	ٱلْعَلِيمُ	ٱلْفَتَّاحُ	ٱلْخَلْقِ

Laam Shamsyyiah (Solar Laam):

It is followed by any of initials of each word in the following verse :

طِبْ ثُمَّ صِلْ رُحمًا تَفُزْ ضِفْ ذَا نِعَمْ دَعْ سُوءَ ظَنٍّ زُرْ شَرِيفًا لِلكَرَمْ

- Its rule: Idgham (merging)
- Its sign in the Qur'an: Laam is devoid of sukoon sign and shaddah is drawn above the next letter

ٱلطَّيِّبَٰتُ	ٱلثَّوَابِ	وَٱلصَّٰلِحِينَ	ٱلرَّزَّاقُ	ٱلتَّٰٓئِبُونَ	ٱلضَّآلِّينَ	ٱلذَّكَرُ
ٱلنَّعِيمِ	ٱلدَّاعِيَ	ٱلسَّمِيعُ	ٱلظَّٰلِمِينَ	ٱلزَّبُورِ	ٱلشَّكُورُ	وَٱلَّيْلِ

2- Laam of Noun (Laam Al -ism)

It is a permanent laam in the root of the noun and always comes in the middle of the word.

- its rule: Ithhar (clarity).

وَأَلْوَٰنِكُمْ	سَلْسَبِيلًا	خَلْفَهُمْ	مَلْجَأً	زِلْزَالَهَا

3- Laam of Command (Laam al-amr):

It is an extra non_voweled laam, added to the present _tense verb and changes it into the imperative form.
It is usually preceded by a particle such as thumma (ثم), Waaw (و), or faa (ف).

- Its rule:-Ithhar (clarity).

فَلْيَمْدُدْ	وَلْيُوفُواْ	وَلْيَطَّوَّفُوا	ثُمَّ لْيَقْطَعْ

4- Laam of the Verb (Laam al-Fil):

It is the original non voweled laam that appears in verbs.
It may occur in past, present,or imperative verbs.This laam is either in the middle of the word or at the end.

Past tense:﴿أَرْسَلْنَا﴾ present tense:﴿يَلْتَقِطْهُ﴾ Imperative tense:﴿وَأَلْقِ﴾ .

- Its rule: Ithhar (Clarity).
  But, If Laam of verb is at the end and followed by the letter laam or raa, idgham (merging) is required.

فَلَا تَقُل لَّهُمَآ أُفٍّ	أَقُل لَّكُمْ	وَقُل رَّبِّ زِدْنِي عِلْمًا	فَقُل رَّبُّكُمْ

5- Laam of the Particle (Laam al-harf):

This refers to the laam that only occurs in the particles هل and بل .

These are the only two instances of laam al -harf found in the Noble Qur'an.

- Its Rule: Idgham (merging) If the laam is followed by لام or. ، راء

هَل لَّكُم مِّن مَّا مَلَكَتۡ	هَل لَّنَا مِنَ ٱلۡأَمۡرِ	بَل رَّفَعَهُ ٱللَّهُ	بَل رَّبُّكُمۡ

Note:

1- It is excluded from this rule ﴿ بَلۡۜ رَانَ ﴾ [المطففين: 14]

where there is sakt (slight pause without taking breath), preventing idgham.

2- Know that the Raa ر never occurs after هل in the Qur'an.

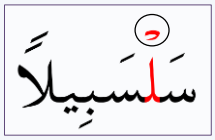

- Its rule: clarity (Ithhar)If the laam is followed by any other letter, it is pronounced clearly b. Examples include:

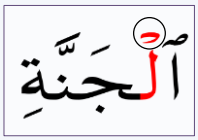

هَلۡ نَحۡنُ	هَلۡ يَسۡتَطِيعُ	بَلۡ طَبَعَ	بَلۡ هُمۡ

- Sukoon is placed on the non_voweled laam, informing that there is ithhar (clarity). examples include:

Hamzatul Qat' And Wasl

هَمزَتا القَطعِ والوَصلِ

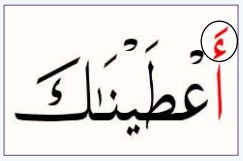

a- Hamzatul Qat' (Dividing hamzah)

Its definition: It is established (pronounced) at the beginning of words or when continuing recitation or stopping.

Hamzatul Qat' comes:

- At the beginning of the word like: ﴿إِنَّآ أَعۡطَيۡنَٰكَ ٱلۡكَوۡثَرَ﴾ [الكوثر: 1]
- In the middle of the word like: ﴿فَبِأَيِّ حَدِيثِۭ بَعۡدَهُۥ يُؤۡمِنُونَ﴾ [المرسلات: 50]
- At the end of the word like: ﴿وَٱللَّهُ يَخۡتَصُّ بِرَحۡمَتِهِۦ مَن يَشَآءُ﴾ [الكهف: 10]

The sign of hamzatul qat' in the Qur'an: (ء)

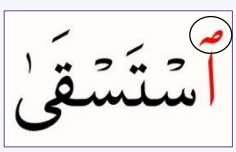

b- Hamzatul Wasl (Linking hamzah)

Its definition: It is an extra hamzah at the beginning of the word, It is established (pronounced) when starting and skipped when continuing recitation.

It is called hamzatul wasl because it leads to pronounce sakin letter after it as the origin not to begin with sakin letter and not to stop on voweled letter, So, Al_Khalil Ibn Ahmed called it Sullam Al_Lisan (ladder of the tongue).

- It can be added to verbs, nouns and articles.
- It is established (pronounced) when starting like: ﴿ٱلۡأَرۡضِ﴾، ﴿ٱسۡتَسۡقَىٰ﴾، ﴿ٱشۡرَبُواْ﴾
- It is dropped when continuing like: ﴿وَٱلۡأَرۡضِ﴾﴿وَإِذِ ٱسۡتَسۡقَىٰ﴾، ﴿وَٱشۡرَبُواْ﴾

The sign of hamzatul wasl in the Qur'an: Alif with head of tiny s'aad above it

How to start with hamzatul wasl (linking hamzah):

① The vowel of linking hamzah when starting with verb:

Linking hamzah is pronounced with dammah if the third letter is with a permanent dammah like:

﴿ٱدۡخُلُواْ﴾، ﴿ٱدۡعُ﴾، ﴿ٱعۡبُدُواْ﴾، ﴿ٱسۡكُنۡ﴾

Linking hamzah is pronounced with kasrah if the third letter:

- is with kasrah like: ﴿ٱرۡجِعُوٓاْ﴾،﴿ٱصۡبِرُواْ﴾
- is with fatha like: ﴿ٱبۡتَغَىٰ﴾، ﴿ٱخۡتَلَفَ﴾، ﴿ٱسۡتَكۡبَرَ﴾
- is with temporary dammah like: ﴿ٱمۡشُواْ﴾، ﴿ٱقۡضُوٓاْ﴾، ﴿ٱئۡتُواْ﴾

The third letter is with temporary dammah because the command of its singular form is (امْشِ) and sheen is with dammah in its plural form to be similar to waaw after it and also the rest of the similar verbs.

② The vowel of linking hamzah in nouns:

Linking hamzah is divided into 2 sections (standard _heard) and in both of them, linking hamzah is pronounced with kasrah when starting with it.

- Standard [Subjects to the rule] like: ﴿ٱسۡتِكۡبَارًا﴾، ﴿ٱسۡتِغۡفَارُ﴾
- Heard [Violates the rule] like:

﴿ٱبۡنُ﴾،﴿ٱبۡنَتَ﴾،﴿ٱمۡرَأَةٌ﴾،﴿ٱمۡرُؤٌاْ﴾، ﴿ٱثۡنَيۡنِ﴾،﴿ٱثۡنَتَيۡنِ﴾، ﴿ٱسۡمُ﴾

③ Adding linking hamzah to articles:

Linking hamzah in the articles occured in the Qur'an as follows:

Extra and permanent (ال) Like: ﴿ٱلَّذِى﴾ ، ﴿ٱلَّتِى﴾

Extra and non_permanent (ال) like: ﴿ٱلۡعَلِيمُ﴾، ﴿ٱلۡحَكِيمُ﴾، ﴿ٱلرَّحۡمَـٰنَ﴾

Linking hamzah is pronounced with fatha when starting with both of them.

Notice: When the reciter stops on the word (بِئۡسَ) for a necessity or a test and he wants to start with the word (الاسمُ) for a test

- It is allowed to start with a hamzah with fathah: (ٱلِسمُ) and it is better right.
- Or to start with laam with kasrah and ignore hamzatul wasl (linking hamzah): (لِسمُ)
- but, In the case of continuing recitation, It has only 1 way:To drop linking hamzah and pronounce laam with kasrah.

﴿ وَلَا تَلۡمِزُوٓاْ أَنفُسَكُمۡ وَلَا تَنَابَزُواْ بِٱلۡأَلۡقَٰبِۖ بِئۡسَ ٱلِٱسۡمُ ٱلۡفُسُوقُ بَعۡدَ ٱلۡإِيمَٰنِ ﴾ [الحجرات: ١١]

Meeting Two Qat' Hamzahs (Two Dividing Hamzahs)

إجتماعُ همزتي قطعٍ

When two qat'(dividing) hamzahs meet and the second of them is sakinah so, It is converted into a lengthening letter that is similar to the vowel of the first hamzah, It is called Madd Badal (Exchange Lengthening).

﴿ءَامَنُواْ﴾ Its origin (ءَأْمنوا) ، ﴿أُوتُواْ﴾ Its origin (أُؤْتوا) ، ﴿إِيمَٰنًا﴾ Its origin (إِئْمَانًا)

If two voweled qat' hamzahs met, both of them should be pronounced clearly

like : ﴿ءَأَنتُمۡ أَشَدُّ خَلۡقًا﴾ ﴿أَءُلۡقِيَ ٱلذِّكۡرُ﴾ ﴿أَءِنَّكَ لَأَنتَ يُوسُفُ﴾

except the word ﴿ءَاعۡجَمِيٌّ﴾ It is allowed only 1 way to lighten the second hamzah.

Tasheel (Easing): To pronounce hamzah with a moderate way between hamzah and a lengthening letter that is similar to its vowel.

If hamzah is with fathah, It is pronounced in a way between hamzah and alif. If hamzah is with dammah, it is pronounced in a way between hamzah and waaw. If hamzah is with kasrah, it is pronounced in a way between hamzah and yaa.

- Pronouncing tasheel is adjusted by word of mouth and learning from a masterful sheikhs.
- Its sign: placing small circle above alif: ﴿ءَاعۡجَمِيٌّ﴾

Hamzatul Wasl precedes Hamzat Qat' with Sukoon

دخولُ همزةِ الوَصلِ على همزةِ قطعٍ ساكنة

When linking hamzah precedes dividing hamzah with sukoon and you want to start with the word, focus attention on:

- Converting the dividing hamzah with sukoon into a lengthening letter that is similar to the vowel of linking hamzah.

This case occured in 7 words in the Qur'an like :

﴿ٱۡٔتُونِي﴾، ﴿ٱۡٔتُونِي﴾، ﴿ٱۡٔذَن﴾، ﴿ٱۡٔتِ﴾، ﴿ٱۡٔتِنَا﴾، ﴿ٱۡٔتِيَا﴾، ﴿ٱۡٔتُواْ﴾

﴿ٱلَّذِي ٱۡٔتُمِنَ﴾ ⟵ ﴿اؤْتُمِنَ﴾. [البقرة: 283].

﴿فِي ٱلسَّمَٰوَٰتِ ٱۡٔتُونِي﴾ ⟵ ﴿ائْتُونِي﴾. [الاحقاف: 4].

Hamzatul Qat' precedes Hamzatul Wasl

دخولُ همزةِ القطعِ على همزةِ الوصلِ

In verbs : When dividing hamzah precedes linking hamzah in verbs, the linking hamzah is dropped in writing and pronouncing, This case occured in 7 words in the Qur'an

﴿أَطَّلَعَ﴾، ﴿أَفۡتَرَىٰ﴾، ﴿أَصۡطَفَى﴾، ﴿أَتَّخَذۡنَٰهُمۡ﴾، ﴿أَسۡتَكۡبَرۡتَ﴾، ﴿أَسۡتَغۡفَرۡتَ﴾

﴿أَسۡتَكۡبَرۡتَ﴾ = ﴿أَ﴾ + ﴿أَسۡتَكۡبَرۡتَ﴾ and also the rest of the words

In articles: When dividing hamzah precedes linking hamzah of laam of the definite article in these 3 words: ﴿ءَآلۡـَٰٔنَ﴾، ﴿ءَآللَّهُ﴾، ﴿ءَآلذَّكَرَيۡنِ﴾

that were mentioned in 6 positions in the Qur'an, It is allowed 2 ways :

1 - Ibdal (Converting): To convert linking hamzah into alif madd for 6 counts (It is preferred regarding performance)

2 - The Tasheel (easing): To ease the linking hamzah(with a moderate way) between hamzah and alif.

﴿ءَ + ٱلذَّكَرَيۡنِ﴾		﴿ءَ + ٱللَّهُ﴾		﴿ءَ + ٱلۡـَٰٔنَ﴾	
﴿ءَآلذَّكَرَيۡنِ﴾	﴿ءَآلذَّكَرَيۡنِ﴾	﴿ءَآللَّهُ﴾	﴿ءَآللَّهُ﴾	﴿ءَآلۡـَٰٔنَ﴾	﴿ءَآلۡـَٰٔنَ﴾
Tasheel	Ibdal	Tasheel	Ibdal	Tasheel	Ibdal

Waqf (Stop) (الوَقفُ)

Science of stop and start is one of the most important researches in the recitation of the Qur'an, The reciter must collect what guides him to a proper stop and good start.

Comparison among waqf, qat' and sakt

- Waqf (stop) (الوقف): Cutting off the sound at the end of the word for a period of time usually accompanied by taking breath with an intention of resuming recitation not abandoning it.
- Qat'(Cutting off) (القطع): Interrupting recitation with an intention of ending it and then, doing another job like Ruku (Bowing down).
- Sakt (Slight pause) (السكت): Cutting off the sound for a period of time less than the time of stop without taking breath with an intention of continuing recitation.

Types of stop

1. Forced stop (الوقفُ الاضطراري): what happens to the reciter during his recitation due to a necessity forced him to stop like shortness of breath, coughing or sneezing or other excuses that compel him to stop.
   Its rule: It is permissible to stop at any word until the compelling state passes.
2. Tested stop (الوقفُ الاختباري) : It is required of the reciter to stop at certain word for being examined and ensuring the quality (correctness) of his recitation.
   Its rule: It is permissible for education.
3. Waiting stop (الوقفُ الانتظاري) : A stop only for whom combines all different ways of recitation to a Sheikh, He stops on a word and then, resumes the verse from its beginning until he reads it by all shapes.
   Its rule: Its is permissible on condition of not giving a corrupt meaning.
4. Optional stopg (الوقفُ الاختياري): The reciter stops by his own choice with no compelling state, It is divided into:

Permissible	Impermissible
Complete stop	Ugly stop
Sufficient stop	
Good stop	

جائزٍ	غيرُ جائزٍ
الوقفُ التَّامُّ	الوقفُ القَبيحُ
الوقفُ الكافي	
الوقفُ الحسَنُ	

Complete Stop

Its definition: It has complete meaning and is not attached to what follows it in parsing nor in meaning.

It is called complete because it conveys complete meaning and is not attached to what follows it in parsing nor in meaning.

Its rule: it is good to stop on it and start with what follows it.
It occurs most commonly at the end of verses and stories like stop on Almighty's saying :

- ﴿مَٰلِكِ يَوۡمِ ٱلدِّينِ ۝٤ إِيَّاكَ نَعۡبُدُ وَإِيَّاكَ نَسۡتَعِينُ﴾ [الفاتحة: 4-5].
- ﴿أُوْلَٰٓئِكَ عَلَىٰ هُدٗى مِّن رَّبِّهِمۡۖ وَأُوْلَٰٓئِكَ هُمُ ٱلۡمُفۡلِحُونَ ۝٥ إِنَّ ٱلَّذِينَ كَفَرُواْ سَوَآءٌ عَلَيۡهِمۡ ءَأَنذَرۡتَهُمۡ أَمۡ لَمۡ تُنذِرۡهُمۡ لَا يُؤۡمِنُونَ ۝٦﴾ [البقرة: 5 - 6].
- ﴿لَّقَدۡ أَضَلَّنِي عَنِ ٱلذِّكۡرِ بَعۡدَ إِذۡ جَآءَنِيۗ وَكَانَ ٱلشَّيۡطَٰنُ لِلۡإِنسَٰنِ خَذُولٗا ۝٢٩﴾ [الفرقان: 29].

Note

Amongst the types of complete stop what is called by scholars as compulsory stop (Clarifying stop):
Compulsory stop (الوقفُ اللَّازمَ): Stopping on a Qur'anic word to make the meaning clear.
It is rule: It is compulsory to stop on it and start with what follows it.
Unless we stop, the meaning may be ambigious in the hearer's mind So, he may not realise the purpose of Allah's words.
Its sign in the Qur'an is meem above (مـ) for example :

- ﴿فَتَوَلَّ عَنۡهُمۡ يَوۡمَ يَدۡعُ ٱلدَّاعِ إِلَىٰ شَيۡءٖ نُّكُرٍ ۝٦﴾ [القمر: 6].
- ﴿إِنَّمَا يَسۡتَجِيبُ ٱلَّذِينَ يَسۡمَعُونَۘ وَٱلۡمَوۡتَىٰ يَبۡعَثُهُمُ ٱللَّهُ ثُمَّ إِلَيۡهِ يُرۡجَعُونَ ۝٣٦﴾
- ﴿فَلَا يَحۡزُنكَ قَوۡلُهُمۡۘ إِنَّا نَعۡلَمُ مَا يُسِرُّونَ وَمَا يُعۡلِنُونَ ۝٧٦﴾ [يس: 76].
- ﴿وَلَا تَدۡعُ مَعَ ٱللَّهِ إِلَٰهًا ءَاخَرَۘ لَآ إِلَٰهَ إِلَّا هُوَ﴾ [القصص: 88].

Sufficient Stop

Its definition: It is a stopping on a word that gives correct meaning and is attached to what follows it in meaning not in parsing .

It is called sufficient because it dispenses with what follows it as they are not attached in parsing, but they are attached in meaning.

Its rule: It is good to stop on it and start with what follows it like complete stop. It occurs at the end of verses and in the middle of them like stopping on Almighty's saying:

- ﴿وَٱلَّذِينَ يُؤۡمِنُونَ بِمَآ أُنزِلَ إِلَيۡكَ وَمَآ أُنزِلَ مِن قَبۡلِكَ وَبِٱلۡأٓخِرَةِ هُمۡ يُوقِنُونَ ۝٤ أُوْلَٰٓئِكَ عَلَىٰ هُدٗى مِّن رَّبِّهِمۡۖ وَأُوْلَٰٓئِكَ هُمُ ٱلۡمُفۡلِحُونَ ۝٥﴾ [البقرة: 4-5]
- ﴿وَٱذۡكُرۡ فِي ٱلۡكِتَٰبِ إِبۡرَٰهِيمَۚ إِنَّهُۥ كَانَ صِدِّيقٗا نَّبِيًّا ۝٤١﴾ [مريم: 41]

Good Stop

Its definition: It is a stopping that conveys complete meaning by itself and is attached to what follows it in parsing and meaning.

It is called good because it gives understood meaning that make stopping good by itself.

Its rule: It is good to stop on it, It is not good to start with what follows it except the end of the verse as stopping at the end of verses is sunnah whether it is attached to what follows it or not like:

- At the end of verses:

﴿ٱلۡحَمۡدُ لِلَّهِ رَبِّ ٱلۡعَٰلَمِينَ ۝٢ ٱلرَّحۡمَٰنِ ٱلرَّحِيمِ ۝٣﴾ [الفاتحة: 2-3].

- Not at the end of verses:

﴿ٱلۡحَمۡدُ لِلَّهِ رَبِّ ٱلۡعَٰلَمِينَ ۝٢﴾ [الفاتحة: 2].

Ugly Stop

Its definition: To stop on what does not give complete meaning because it is attached to what follows it in parsing and meaning. Stopping on it gives Incomplete or wrong meaning.

It is called ugly Due to ugliness of stopping as it did not give correct meaning or gave an unintended meaning or deluded with a corrupt meaning.

Its rule: The reciter shouldn't stop on it deliberately except for urgency, If he had to stop, he should resume (until giving a correct meaning).

- Stopping on a word that doesn't give a meaning because it is strongly attached to what follows it in parsing and meaning like:

﴿ٱلۡحَمۡدُ لِلَّهِ رَبِّ ٱلۡعَٰلَمِينَ ۝٢﴾ [الفاتحة: 2].

- Stopping on a word that deludes with a meaning unlike Allah's intention like:

﴿لَا تَقۡرَبُواْ ٱلصَّلَوٰةَ وَأَنتُمۡ سُكَٰرَىٰ﴾ [النساء: 43].

- Stopping on a word which deludes with an inappropriate meaning for Allah like:

﴿ فَٱعۡلَمۡ أَنَّهُۥ لَآ إِلَٰهَ إِلَّا ٱللَّهُ وَٱسۡتَغۡفِرۡ لِذَنۢبِكَ وَلِلۡمُؤۡمِنِينَ وَٱلۡمُؤۡمِنَٰتِۗ ﴾ [محمد: 19].

علاماتُ الوقفِ في المُصحف

مـ Symbol of compulsory stop.

﴿إِنَّمَا يَسْتَجِيبُ ٱلَّذِينَ يَسْمَعُونَ ۘ وَٱلْمَوْتَىٰ يَبْعَثُهُمُ ٱللَّهُ ثُمَّ إِلَيْهِ يُرْجَعُونَ﴾[الانعام: 36].

لا Symbol of prohibited stop because of Incomplete meaning.

﴿وَٱلَّذِى جَآءَ بِٱلصِّدْقِ وَصَدَّقَ بِهِۦٓ ۙ أُو۟لَٰٓئِكَ هُمُ ٱلْمُتَّقُونَ﴾ [الزمر: 33]

ج Symbol of possibility of both stopping and continuing.

﴿وَلَا يَحْزُنكَ قَوْلُهُمْ ۘ إِنَّ ٱلْعِزَّةَ لِلَّهِ جَمِيعًا ۚ هُوَ ٱلسَّمِيعُ ٱلْعَلِيمُ ﴿٦٥﴾﴾[يونس: 65]

قلى Symbol of possibility of continuing while stopping is better right.

﴿فَإِن قَٰتَلُوكُمْ فَٱقْتُلُوهُمْ ۗ كَذَٰلِكَ جَزَآءُ ٱلْكَٰفِرِينَ﴾ [الفرقان: 191].

صلى Symbol of possibility of stopping while continuing is better right.

﴿مَّا تَرَىٰ فِى خَلْقِ ٱلرَّحْمَٰنِ مِن تَفَٰوُتٍ ۖ فَٱرْجِعِ ٱلْبَصَرَ هَلْ تَرَىٰ مِن فُطُورٍ﴾ [الملك: 3]

∴ Symbol of related stop: If the reader stops on one of the two positions, he should not stop on the other.

﴿ذَٰلِكَ ٱلْكِتَٰبُ لَا رَيْبَ ۛ فِيهِ ۛ هُدًى لِّلْمُتَّقِينَ﴾ [البقرة: 2].

- It is also permissible to Join the two positions together with no stopping on any of them.

Ibtida'(Start) (الإبتِداءُ)

Its definition: To start recitation after cutting off or stopping.

Imam Ibn Al_Gazari said (Start is only optional because it is not compulsory like stop, It is impermissible to start except with an independent meaning that conveys the intended and is not attached to what precedes it in meaning) .

Types of start

① Good start (الإبتِداءُ الحَسن): It is permissible to start with it where the meaning is independent by itself.
It is divided into complete, sufficient and good as the division of stopping like :

a - Complete start (الإبتِداءُ التَّام):To start with what is not attached to what precedes it in parsing or meaning like starting with the beginning of surahs.

b - Sufficient start (الإبتِداءُ الكافي): To start with what is attached to what precedes it in meaning not parsing like:

﴿يُؤۡمِنُونَ ۝٦ خَتَمَ ٱللَّهُ عَلَىٰ قُلُوبِهِمۡ﴾ [البقرة: 7].

c - Good start (الإبتِداءُ الحَسن): To start with a good meaning that is attached to what precedes it like:

﴿۝٧ وَمِنَ ٱلنَّاسِ مَن يَقُولُ ءَامَنَّا﴾ [البقرة: 8].

② Ugly start (الإبتِداءُ القَبيح): To start with what gives a corrupt meaning because it is strongly attached to what precedes it in parsing and meaning. If the reciter starts with it, he gives a corrupt meaning or deludes with a meaning unlike Allah's intention, For example

Starting with Almighty's saying: ﴿ٱتَّخَذَ ٱللَّهُ وَلَدٗا ۗ﴾

Of the verse ﴿قَالُواْ ٱتَّخَذَ ٱللَّهُ وَلَدٗا ۗ﴾ [يونس: 68]

Starting with Almighty's saying: ﴿إِنَّ ٱللَّهَ فَقِيرٞ وَنَحۡنُ أَغۡنِيَآءُ﴾

Of the verse ﴿لَّقَدۡ سَمِعَ ٱللَّهُ قَوۡلَ ٱلَّذِينَ قَالُوٓاْ إِنَّ ٱللَّهَ فَقِيرٞ﴾[آل عمران: 181]

Starting with Almighty's saying: ﴿عُزَيۡرٌ ٱبۡنُ ٱللَّهِ﴾

﴿وَقَالَتِ ٱلۡيَهُودُ عُزَيۡرٌ ٱبۡنُ ٱللَّهِ﴾ [التوبة: 30]

The Seven Alifs (الأَلِفاتُ السَّبعُ)

There are 7 alifs in 7 words pronounced when stopping and omitted when continuing recitation according to the narration of Hafs on the authority of Asim.

- The sign of these alifs in the Qur'an is placing oblong zero above them like: ﴿ أَنَا ﴾

1. ﴿ أَنَا ﴾ It was mentioned in the Qur'an ﴿وَلَآ أَنَا۠ عَابِدٌ مَّا عَبَدتُّمۡ﴾ [الكافرون: 4]
2. ﴿لَّٰكِنَّا۠﴾ [الكهف: 38] ﴿لَّٰكِنَّا۠ هُوَ ٱللَّهُ رَبِّي وَلَآ أُشۡرِكُ بِرَبِّيٓ أَحَدٗا﴾
3. ﴿ٱلظُّنُونَا۠﴾ [الاحزاب: 10-11]

﴿.... وَتَظُنُّونَ بِٱللَّهِ ٱلظُّنُونَا۠ ١٠ هُنَالِكَ ٱبۡتُلِيَ ٱلۡمُؤۡمِنُونَ وَزُلۡزِلُواْ زِلۡزَالٗا شَدِيدٗا﴾

4. ﴿ٱلرَّسُولَا۠﴾ [الاحزاب: 66]

﴿يَوۡمَ تُقَلَّبُ وُجُوهُهُمۡ فِي ٱلنَّارِ يَقُولُونَ يَٰلَيۡتَنَآ أَطَعۡنَا ٱللَّهَ وَأَطَعۡنَا ٱلرَّسُولَا۠ ٦٦ وَقَالُواْ رَبَّنَآ ....﴾

5. ﴿ٱلسَّبِيلَا۠﴾ [الاحزاب: 67]

﴿..... فَأَضَلُّونَا ٱلسَّبِيلَا۠ ٦٧ رَبَّنَآ ءَاتِهِمۡ ضِعۡفَيۡنِ مِنَ ٱلۡعَذَابِ وَٱلۡعَنۡهُمۡ لَعۡنٗا كَبِيرٗا﴾

6. ﴿سَلَٰسِلَا۠﴾ [الإنسان: 4] ﴿إِنَّآ أَعۡتَدۡنَا لِلۡكَٰفِرِينَ سَلَٰسِلَا۠ وَأَغۡلَٰلٗا وَسَعِيرٗا﴾
7. ﴿قَوَارِيرَا۠﴾ [الإنسان: 15-16]

- Note -1-: it is correct to remove alif of the word ﴿سَلَٰسِلَا۠﴾ when stopping on it to become ﴿سَلَٰسِلْ﴾
- Note -2-: There is another zero called (round zero). It means that the letter is not pronounced at all like:

﴿مِاْئَةٍ﴾ ، ﴿سَأُوْرِيكُمْ﴾ ، ﴿ وَأُوْلَٰٓئِكَ﴾ ، ﴿نَّبَإِىْ ٱلۡمُرۡسَلِينَ﴾

The sign of omitting — The sign of seven alifs

﴿وَيُطَافُ عَلَيۡهِم بِـَٔانِيَةٖ مِّن فِضَّةٖ وَأَكۡوَابٖ كَانَتۡ قَوَارِيرَا۠ ١٥ قَوَارِيرَا۠ مِن فِضَّةٖ قَدَّرُوهَا تَقۡدِيرٗا﴾

Nabr (Accent) in the Qur'an

النَّبرُ في القرآنِ الكريمِ

Its definition

In linguistics: Pressing and raising voice.

In applied definition: Pressure on a part or specific letter of the word where its sound is a little louder than the neighbouring letters.

Positions of Accent

1. When pronouncing waaw or yaa with shaddah like:

﴿ إِيَّاكَ ﴾ ، ﴿ مِّن قُوَّةٍ ﴾ ، ﴿يَٰٓأَيُّهَا ٱلَّذِينَ ءَامَنُواْ كُونُواْ قَوَّٰمِينَ بِٱلۡقِسۡطِ ﴾

2. When Moving from a lengthening letter to the first of the mushaddad letter (In the case of compulsory lengthening) like:

﴿ عَلَيۡهِمۡ وَلَا ٱلضَّآلِّينَ ﴾ ﴿فَإِذَا جَآءَتِ ٱلصَّآخَّةُ ﴾ ﴿وَمَا مِن دَآبَّةٍ ﴾

3. When Stopping on hamzah that occurs after a lengthening or leen letter like: ﴿ بِهِمۡ ﴾ ﴿سِيٓءَ﴾، ﴿سُوٓءَ﴾، ﴿ٱلسَّمَآءِ﴾

4. When dropping alif of the two to eliminate meeting two sakin letters like: ﴿ لِلَّهِ ٱلۡحَمۡدُ ﴾ ﴿وَقَالَا ﴾، ﴿ذَاقَا ٱلشَّجَرَةَ ﴾

5. When stopping on mushaddad letter like:

- ﴿ يَٰٓأَيُّهَا ٱلنَّبِيُّ ﴾، ﴿ وَكُلُّ أَمۡرٍ مُّسۡتَقِرٌّ ﴾.
- ﴿ ٱللَّهُ لَآ إِلَٰهَ إِلَّا هُوَ ٱلۡحَيُّ ٱلۡقَيُّومُ ﴾.
- ﴿أَن تَمِيدَ بِكُمۡ وَبَثَّ فِيهَا مِن كُلِّ دَآبَّةٖۚ ﴾.

• Note: Nabr is applied when stopping on mushaddad letter except:

1– Stop on noon and meem mushaddad like: ﴿وَلَٰكِنَّ﴾، ﴿فِي ٱلۡيَمِّ﴾

2 – The Stop on letter of qalqalah that is with shaddah like: ﴿ وَتَبَّ ﴾، ﴿بِٱلۡحَقِّ﴾

What must be considered for Hafs

مَا يُراعى لحَفصٍ

① The rule of s'aad in Almighty's saying:

These two words are recited only with seen.

- ﴿وَٱللَّهُ يَقۡبِضُ وَيَبۡصُۜطُ وَإِلَيۡهِ تُرۡجَعُونَ﴾ [البقرة: 245].
- ﴿وَزَادَكُمۡ فِي ٱلۡخَلۡقِ بَصۜۡطَةً﴾ [الاعراف: 69].

is only recited with s'aad.

- ﴿لَّسۡتَ عَلَيۡهِم بِمُصَيۡطِرٍ﴾ [البقرة: 245].
- ﴿أَمۡ عِندَهُمۡ خَزَآئِنُ رَبِّكَ أَمۡ هُمُ ٱلۡمُصَيۡطِرُونَ﴾ [الطور: 37].

it can be recited with s'aad or seen, but the first is the most common.

② In Almighty's saying: ﴿الٓمٓ ۝١ ٱللَّهُ لَآ إِلَٰهَ إِلَّا هُوَ ٱلۡحَيُّ ٱلۡقَيُّومُ﴾

At the beginning of surat Al_Imran, Meem is pronounced with fathah when continuing recitation due to meeting two sakin letters, the first of them is the last meem when spelling (ميم) and the second of them is the first laam of the exalted name of Allah. It is allowed 2 ways when pronouncing yaa of the word.

- It can be prolonged as compulsory lengthening for 6 counts, considering its origin (original sukoon) and neglecting temporary vowel (fathah) like:

(ألف لآم مِّـــيـــ

③ The word ﴿فَمَآ ءَاتَىٰنِۦَ ٱللَّهُ خَيۡرٞ مِّمَّآ ءَاتَىٰكُم﴾ [النمل: 36]

can be pronounced by 2 ways when stopping:

- Yaa sakinah is pronounced like: ﴿فَمَآ ءَاتَىٰنِۦۡ﴾
- Yaa sakinah is omitted and noon is pronounced with sukoon or rawm (Rawm to pronounce part of kasrah) like: ﴿فَمَآ ءَاتَىٰنِ﴾

What must be considered for Hafs

مَا يُراعى لحَفصٍ

④ The two words ﴿ضَعۡفٖ﴾، ﴿ضَعۡفٗا﴾ in the 3 positions of surat A'rum, D'aad is pronounced with fathah (It is better right) or dammah like:

﴿ ٱللَّهُ ٱلَّذِي خَلَقَكُم مِّن ضُعۡفٖ ثُمَّ جَعَلَ مِنۢ بَعۡدِ ضُعۡفٖ قُوَّةٗ ثُمَّ جَعَلَ مِنۢ بَعۡدِ قُوَّةٖ ضُعۡفٗا وَشَيۡبَةٗ ﴾.

- Note: During recitation, the three positions must be read with the same harakah Three positions are with fathah or Three positions are with dammah.

⑤ When starting with the word ﴿لَۡٔيكَةِ﴾, It is pronounced with a linking hamzah with fathah Like: ﴿ٱلۡأَيۡكَةِ﴾

- ﴿كَذَّبَ أَصۡحَٰبُ لَۡٔيكَةِ ٱلۡمُرۡسَلِينَ﴾ [الشعراء: 176].
- ﴿وَثَمُودُ وَقَوۡمُ لُوطٖ وَأَصۡحَٰبُ لَۡٔيكَةِ أُوْلَٰٓئِكَ ٱلۡأَحۡزَابُ﴾ [ص: 13].

⑥ Tilting alif and fathah that precedes it of the word ﴿مَجۡرٖىٰهَا﴾ In Almighty's saying: ﴿ وَقَالَ ٱرۡكَبُواْ فِيهَا بِسۡمِ ٱللَّهِ مَجۡرٖىٰهَا وَمُرۡسَىٰهَآ ﴾ [هود:41]

- Imalah (Tilting): To make the sound of fathah close to kasrah and alif close to yaa without a pure converting nor excessive fulfillment (of harakah or lengthening letter) .
- For Hafs, there is no Imalah except this word.

⑦ The word ﴿إِلۡ يَاسِينَ﴾ was mentioned once in the Qur'an, Hafs considers them as one word when stopping: ﴿إِلۡيَاسِينَ﴾

(He stops on the word (ياسين) and prevents stopping on the word (إل)

Rawm _Ishmam _Sukoon Mahd

الرَّومُ والإشمامُ والسُّكونُ المحضُ

Sukoon Mahd (Pure sukoon)

Its definition: It is a sukoon that is devoid of harakah (vowel), It is used to stop on letter with fathah, dammah and kasrah.

Examples: ﴿ ٱلۡعَٰلَمِينَ ۡ﴾، ﴿ٱلرَّحِيمُ﴾، ﴿ٱلدِّينِ ۡ﴾

Rawm

Its definition: To pronounce the part of vowel (nearly one third of harakah) when stopping on dammah or kasrah and it can be heard by the near not far.

Examples: ﴿نَسۡتَعِينُ ۡ﴾، ﴿ ٱلرَّحِيمُ ﴾، ﴿ٱلدِّينِ ۡ﴾، ﴿ٱلۡفِيلِ﴾

Rule: When rawm is applied, we follow the same rules of lengthening as when we continue recitation.
(Letter of madd is prolonged for 2 counts).

Ishmam

Its definition: It is to circle the lips after giving sukoon to the letter with dammah directly by the same shape as pronouncing dammah with a voiceless manner and is not perceived by the blind.

Examples: ﴿نَسۡتَعِينُ ۡ﴾، ﴿ يَشۡعَيۡبُ ﴾، ﴿أَلِيمُۢ﴾

Rule: When ishmam is applied, we follow the same rules of lengthening as when we stop with pure sukoon. (Letter of madd is prolonged for 2 or 4 or 6 counts).

- Notice: For Hafs, the origin of rawm and Ishmam is when stopping at the end of the word, There is neither rawm nor Ishmam when continuing recitation or in the middle of the word except 1 word ﴿تَأۡمَنَّا﴾.

﴿قَالُواْ يَٰٓأَبَانَا مَا لَكَ لَا تَأۡمَنَّا عَلَىٰ يُوسُفَ وَإِنَّا لَهُۥ لَنَٰصِحُونَ﴾ [يوسف: 11]

In the narration of Hafs on the authority of Asim, It is allowed to pronounce it by 2 ways :

A - Ishmam: pronouncing non_voweled noon and merging it into the second with circling the two lips without a sound directly after pronouncing the merged noon like: (تَأمـنَّـــا)

B - Rawm: Remaining dammah above the first noon and lowering its sound slightly with a quick manner if it is compared to the neighbouring letters like: (تَأمـنُّـــنَـــا)

How can we stop at the end of Qur'anic words _briefly _

كيفيَّةُ الوقوفِ على أواخرِ الكلماتِ القرآنيَّةِ – باختِصارٍ-

Vowel	Example	The way of stopping
Original sukoon	﴿ فَلَا تَنۡهَرۡ ﴾	Only with Sukoon
Fathah	﴿ هُنَالِكَ ﴾	Only with Sukoon
kasrah or double kasrah	﴿ ٱلرَّحِيمِ ﴾، ﴿ حَاسِدٍ ﴾	with sukoon or rawm
Dammah or double dammah	﴿لَهُ ٱلۡحَمۡدُ﴾، ﴿سَمِيعٌ﴾	with sukoon or rawm or ishmam
Double fathah	﴿عَلِيمًا﴾	(Madd Ewad) Substituting an alif for tanween

How can we stop at the end of Qur'anic words _ In details _

كيفيَّةُ الوقوفِ على أواخرِ الكلماتِ القرآنيَّةِ - بالتَّفصيلِ -

For simplifying this subject, the types of utterances that can be stopped on them by several ways are limited to 9 types as follows:

No	Type	Vowel of the last letter	Example	Ways Of stopping on it
1	The letter is with an original sukoon	sukoon	فَلَا تَنْهَرْ	1- Pure sukoon
2	The letter is voweled when continuing recitation and is not preceded by a lengthening or leen letter.	fathah	هُنَالِكَ	1- Pure sukoon
		kasrah	رَبِّ	1- Pure sukoon 2- Rawm
		Dammah	لَهُ ٱلْحَمْدُ	1- Pure sukoon 2- Rawm 3- Ishmam
3	Madd arid li'sukoon (Conditional to sukoon) or Madd leen (Soft lengthening)	fathah	ٱلدِّينَ ٱلْقَوْلَ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling
		kasrah	مَتَابِ ٱلْحُسْنَيَيْنِ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling 4- Rawm with shortening
		Dammah	نَسْتَعِينُ قَوْمٌ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling 4- Rawm with shortening 5- Ishmam with shortening 6- Ishmam with moderating 7- Ishmam with fulfilling

No	Type	Vowel of the last letter	Example	Ways Of stopping on it
4	With tanween	Double fathah	عَلِيمًا	1- Substituting an Alif for tanween (Madd Ewad)
		Double kasrah	حَمِيدٍ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling 4- Rawm with shortening
		Double Dammah	سَمِيعٌ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling 4- Rawm with shortening 5- Ishmam with shortening 6- Ishmam with moderating 7- Ishmam with fulfilling
5	Madd mustasil (Joined lengthening)	fathah	شَآءَ	1- Pure sukoon with moderating 2- Pure sukoon with lengthening for 5 counts 3- Pure sukoon with fulfilling
		kasrah	مِّنَ ٱلسَّمَآءِ	1- Pure sukoon with moderating 2- Pure sukoon with lengthening for 5 counts 3- Pure sukoon with fulfilling 4- Rawm with moderating 5- Rawm with lengthening for 5 counts
		Dammah	يَشَآءُ	1- Pure sukoon with moderating 2- Pure sukoon with lengthening for 5 counts 3- Pure sukoon with fulfilling 4- Rawm with moderating 5- Rawm with lengthening for 5 counts 6- Ishmam with moderating 7- Ishmam with lengthening for 5 counts 8- Ishmam with fulfilling

No	Type	Vowel of the last letter	Example	Ways Of stopping on it
6	Madd Lazim (Compulsory Lengthening)	fathah	صَوَآفَّ	1- Sukoon with fulfilling
		kasrah	مُضَآرٍّ	1- Sukoon with fulfilling 2- Rawm with fulfilling
		Dammah	وَٱلدَّوَآبُّ	1- Sukoon with fulfilling 2- Rawm with fulfilling 2- Ishmam with fulfilling
7	pronoun haa (هاءُ الكِناية) (According to the school of thought of detail which is most correct) Notice: Scholars have three sayings concerning applying rawm and ishmam to pronoun haa: 1- Absolute prevention. 2- Absolute permissibility. 3- The school of thought of detail: - It is prevented to apply rawm or Ishmam on the pronoun haa if it is preceded by (waaw sakinah, dammah, yaa sakinah or kasrah) - Pronoun haa is accompanied by rawm or ishmam if it is preceded by (alif, sakin letter or fathah)		قَتَلُوهُ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling
			قُلْتُهُ	1- Pure sukoon
			فَأَلْقِيهِ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling
			بِهِ	1- Pure sukoon
			عَلَّمْنَهُ	1- Pure sukoon with shortening 2- Pure sukoon with moderating 3- Pure sukoon with fulfilling 4- Rawm with shortening 5- Ishmam with shortening 6- Ishmam with moderating 7- Ishmam with fulfilling
			مِنْهُ	1- Pure sukoon 2- Rawm 3- Ishmam
			عَلِمْتَهُ	1- Pure sukoon 2- Rawm 3- Ishmam

No	Type	Vowel of the last letter	Example	Ways Of stopping on it
8	1- Feminine taa which is written as haa (Closed haa) تاءُ التَّأنيثِ المكتوبةُ هاءً (التَّاءُ المربوطة) It is pronounced as taa when continuing recitation, but when stopping, It is pronounced as non_voweled haa, There is no rawm nor ishmam applied to it, Like: 2- Feminine taa which is written as taa (Open taa). تاءُ التَّأنيثِ المكتوبةُ تاءً (التَّاءُ المَبسُوطة) It is pronounced as taa when stopping and rawm and ishmam can be applied to it, Like: ﴿وَإِذۡ قُلۡنَا لِلۡمَلَٰٓئِكَةِ ٱسۡجُدُواْ﴾		وَرَحۡمَةٌ رَحۡمَةً جَنَّةٍ	1- Converting (To convert taa into non _voweled haa)
		fathah	رَحۡمَتَ	1- Pure sukoon
		kasrah	رَحۡمَتِ	1- Pure sukoon 2- Rawm
		Dammah	رَحۡمَتُ	1- Pure sukoon 2- Rawm 3- Ishmam
9	Temporary shape (vowel) (resulting from meeting two sakin letters)	وَأَنذِرِ ٱلنَّاسَ وَأَنتُمُ ٱلۡأَعۡلَوۡنَ		1- Pure sukoon

The Rule Of Meeting Two Sakin Letters

حكمُ التِقاءِ السَّاكِنين

Meeting two sakin letters in 1 word :

Meeting two sakin letters in 1 word is permissible in 2 cases :

1. The first of the two sakin letters is a lengthening or soft letter like:

﴿ٱلضَّآلِّينَ﴾، ﴿نۦ﴾ It is pronounced ﴿نۦ﴾ ، (نُـون) ﴿قٓ﴾ It is pronounced ﴿قٓ﴾ ، (قَـاف) ﴿عٓسٓ﴾ ، (عَيـن)

2. The second of the two sakin letters has temporary sukoon like:

﴿ٱلۡعَٰلَمِينَ﴾، ﴿ٱلۡبَيۡتِ﴾

Meeting two sakin letters in 2 words :

Arabs avoid joining two sakin letters in 2 words, but if the two sakin letters met during speech, they get rid of them by one of the two following ways :

1. By dropping the first of them in pronouncing (By Omitting):
It occurs when the lengthening letter meets sakin letter after it.
So, the lengthening letter and linking hamzah are omitted.
Like: ﴿ذَاقَا ٱلشَّجَرَةَ﴾، ﴿وَفِي ٱلسَّمَآءِ﴾، ﴿قَالُواْ ٱللَّهُمَّ﴾

2. By vowel:
The origin of eliminating consecutive two sakin letters in two words to pronounce the first of them with kasrah like:
﴿قُلِ ٱدۡعُواْ ٱللَّهَ أَوِ ٱدۡعُواْ ٱلرَّحۡمَٰنَ﴾، ﴿وَقَالَتِ ٱخۡرُجۡ﴾، ﴿أَمِ ٱرۡتَابُوٓاْ﴾.

It may be against the origin: The first of the two sakin letters may be pronounced:

With fathah: It has 3 shapes

a - The preposition (من)
﴿مِنَ ٱلشَّٰهِدِينَ﴾، ﴿مِنَ ٱلۡخَٰلِدِينَ﴾

(من) Is structured on sukoon. The first sakin letter (noon) meets the second sakin (laam shamsiyyah) (solar laam) that is merged into sheen

b - (Feminine taa) if it is added to alif of the two:
In the two words ﴿كَانَتَا﴾، ﴿قَالَتَا﴾
Feminine taa is structured on sukoon and alif of the two is sakinah.

c – (الٓمٓ ۝١ ٱللَّهُ) Meem is read with fathah at the beginning of surat Al_Imran when joining.
Meem is an alphabetical letter structured on sukoon.
ميم meets with non_voweled laam of Allah.

With dammah : It has 2 shapes:

a - Waaw leen (Soft waaw) that indicates to plural:

﴿فَتَمَنَّوُاْ ٱلۡمَوۡتَ﴾،﴿وَعَصَوُاْ ٱلرَّسُولَ﴾

In the two examples :Soft waaw is a sakin letter preceded by fathah.

b - Meem of plural: ﴿عَلَيۡكُمُ ٱلۡقِتَالُ﴾،﴿لَكُمُ ٱلَّيۡلَ﴾

Meem of plural is a letter structured on sukoon, meeting non _voweled laam of the definite article after dropping the linking hamzah during speech.

Sujood A'tilawah (Prostration Of Recitation)

(سُجودُ التِّلاوة)

It is a prostration performed after reciting a verse of prostration.

- Its rule: Stressed supererogation (Sunnah Mu'akadah)
(The prophet Mohammed peace be upon him continously performed and almost never abandoned).

- Its positions : There are 15 positions of prostration of recitation :

[الأعراف :206] ، [الرعد :15] ، [النحل:49] ، [الإسراء:107] ، [مريم :58]

[الحج :18] ، [الحج :77]، [الفرقان:60]، [النمل:25] ، [السجدة :15]

[ص :24] ، [فصلت :37] ، [النجم:62] ، [الانشقاق:21] ، [العلق :19]

- What is said during prostration:

It is sunnah to say during the prostration of recitation:

"سجد وجهي للذي خلقه، وشق سمعه وبصره، بحوله وقوته"

"My face has prostrated to the one who created it and brought forth its hearing and sight by his might and power" Sahih A'Tirmidhi 3425

Some scholars allowed to say: " سبحان ربي الأعلى"

"Glory be to my lord, the most high" or do like all the positions of prostration.

- Its sign in the Qur'an :

﴿ كَلَّا لَئِن لَّمۡ يَنتَهِ لَنَسۡفَعَۢا بِٱلنَّاصِيَةِ ١٥ نَاصِيَةٖ كَٰذِبَةٍ خَاطِئَةٖ ١٦

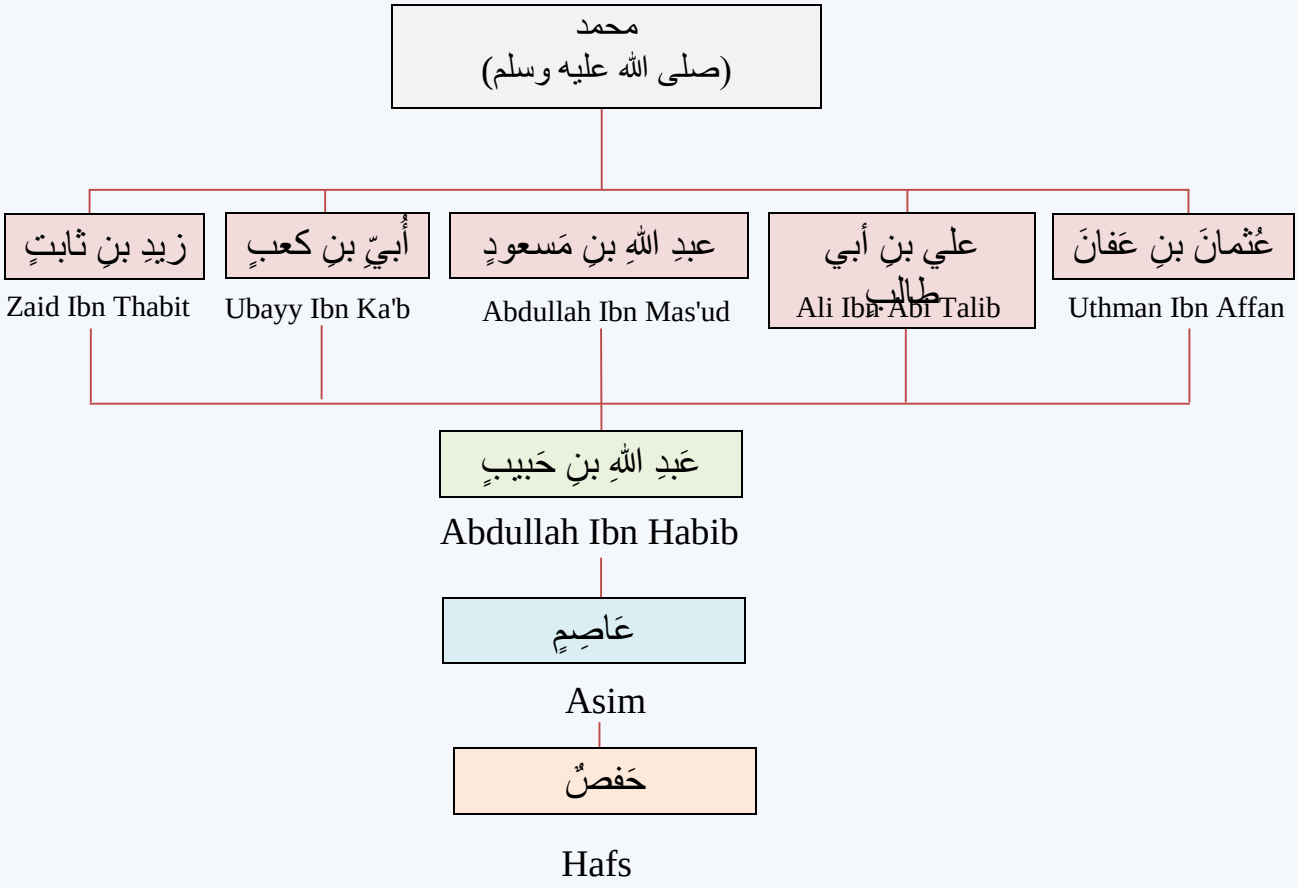

فَلۡيَدۡعُ نَادِيَهُۥ ١٧ سَنَدۡعُ ٱلزَّبَانِيَةَ ١٨ كَلَّا لَا تُطِعۡهُ وَٱسۡجُدۡ

وَٱقۡتَرِب ۩ ١٩ ﴾ [سورة العلق]
